Gentlemen:

The proprietors of East & West New Jersey, having upon very mature Consideration, thought fit to Surrender to her most Sacred Majesty the Great Queen of England, my Mistris, all the Powers of Government, which they supposed were vested in them, the Queen has been pleased to unite these formerly two Provinces now into one, under the Name of Nova Cesarea, or New Jersey :—Her Majesty has been pleased graciously to Honor me with the Trust of this Government, & has commanded me to assure you of her Protection, upon all Occasions, & you may assure yourselves, that under her Auspicious Reign, you will enjoy all the Liberty, happiness & Satisfaction that good Subjects can wish for, under a most gracious Queen, and the
the best Laws in the Universe; I mean the Laws of England, which all the World would be glad to partake of, & none are so happy to enjoy, but those whose propitious Stars have placed under the most happily constituted Monarchy. I will not Question, but that you, on yo’r parts, will do all than can be expected from faithful Subjects, both for the Satisfaction of the Queen, the Good and Safety of your Countrey, which must be attended with general satisfaction to all people.

In order to Attain these good ends, I most earnestly Recommend, both to you, Gentlemen of her Majestie’s Council, & you, Gentlemen of the Assembly, to apply yo’relves heartily and seriously to the Reconciling the unhappy differences which have happened in this Province, that, as the Queen has united the two Provinces, so the minds of all the people may be firmly united in the service of the Queen & good of the Countrey, which all are one, & cannot be separated without danger of destroying both.

Gentlemen, you are now met in General Assembly on purpose to prepare such Bills to be passed into Laws, to be Transmitted into England for Her Majesty’s Approbation, as may best conduce to the Settling of this Province upon a lasting foundation of happiness and Quiet; only I must recommend it to you, That the Bills you shall think fit to offer may not be repugnant to the Laws of England, but as much as may be agreeable to them.

I must recomend to you, Gentlemen, in the wording of your Bills to Observe the stile of Enacting by the Governor, Council, and Assembly, and, likewise, that each different matter be Enacted by a different Law to avoid Confusion.

In all Laws whereby you shall think fit to Grant money or to Impose any Fines or penalties, express mention may be made that the same is Granted or Reserved unto her Ma’y, her Heirs or Successors, for the Public uses of this Province, & the support of the Govern’t thereof.

Gentlemen, I am further Comanded by the Queen, to Recomend it to you to Raise and settle a Revenue for defraying the necessary Charge of the Govern’t of this Province, in order to Support the Dignity of it.

I am likewise comanded to Recomend to yo’r care, the preparing one or more Bill or Bills, whereby the Right and Property of the General Proprietors to the soil of this Province may be Confirmed to them, according to their respective Titles, together with all Quit Rents and all other Privileges, as Expressed in the Conveances made by the Duke of York, except only the Right of Govern’t, w’th remains in the Queen.

Now
Now Gentlemen, I have acquainted you with some of those things, w'th the Queen is desirous to have done, I shall likewise acquaint you, that her Majesty has been graciously pleased to grant to all her Subjects in this Province (Except Papists) Liberty of Conscience, I must further Inform you, that the Queen has comanded me, not to receive any present from the Genl Assembly of this Province, & that no person who may succeed me in this Goverm't may claim any present for the future, I am comanded to take care that her Maj'ty's Orders may be entred at large in the Council Books & the Books of the Genl Assembly.

Now Gentlemen, I have no more to Offer to you at this time, only I recomend to you Dispatch in the matters before you & Unanimity in yo'r Consultations, as that w'th will always best & most effectually Conduce to the Good of the whole.

The Speaker also Reported That according to Order he had Pray'd his Excellency to Grant the Rights and Privileges of the House as above expressed: And that his Excellency was pleased to Grant the three first as the Just and undoubted Right of the House, but did Reject the 4th as an Innovation, & accordingly Ordered the entring thereof in the Council Books.

Gentlemen,

The Season of ye year being so far Advanced, makes it absolutely necessary to put an End to this Sessions, for ye present, I could have wisht we could have Dispatcht the several Bills before us, but ye matters contained in them were of so great Moment, ye difficulties so many & ye time so Short, yt it was impossible to finish what I so much desired, how ever this benefit, I hope, we shall all reap from this Sessions, yt is, that being Acquainted with the Nature of those Difficulties, we shall come prepared in ye Spring to Remove them. That such good Laws as may Effectually Ascertain ye Rights of ye Genl Proprietors, & fully secure every man's Estate may be provided, these being points which will most Conduce to ye peace & welfare of this Colony. I Earnestly Recomend it to you Gentl of the Council & Assembly, to Employ your Thoughts seriously to find out ye most Effectual ways to Attain those Desirable Ends. I likewise Recomend to ye Care during ye Recess, to think of what other Laws may be necessary to be past for ye Good Govermt of this Province in wch you shall always find me ready to Consent, to all such things, as shall be for the good of ye whole.
I have nothing more to add at this time, but to desire you to take care in your several Counties, y' peace be preserved.

Mr Speaker Reported That His Excellency was pleased yes-terday to make a favourable Speech to ye Hs of wch he had obtained a Copy from His Excellency and is as follows vizt Gentlemen,

The time to wch you were Adjourned being come, & it being almost a year since ye last Sessions, I do not Question but by your own Observations, you are Satisfied how necessary it is, That some good Laws may be passed at this Time.

I therefore most earnestly recomend it to you Gentlemen of ye Hs of Representatives to prepare a Bill to be passed into An Act

D
Act for ye Settling such a Revenue, upon Her Most Sacred Majesty ye Queen as may be sufficient to Support ye Governor with that Honor & Credit with ye nature of it Requires, for want of which several things of Absolute Necessity for ye good of ye Country could not be done.

I think a Bill for regulating ye Militia of this Province will be of great use; I should be glad a good Bill might be prepared for the laying out & keeping in Repair, Good Sufficient Common Highways throughout this Province, & for ye Repairing those already made, with will be not only a Conveniency unto ye Inhabitants, but an encouragement to those of ye Neighbouring Provinces, to Trade among us.

The late Attempt by a French privateer within Sandy Hook, upon ye Coast of ye Eastern Division of this Province makes me think it absolutely necessary to Recommend to you, ye raising such a Sum as may be sufficient to Erect a Watchhouse, with Beacon Adjoining to it, upon ye High lands of Neversincks, with sufficient maintenance for a man to live there; by which means, upon any appearance of Danger, ye Country will be alarmed, & ye people not Exposed to be plundered, as some of them lately were. I must again put you in mind Gent'man, of preparing a Good Bill, whereby ye right & Property of ye General Property to ye soil of this Province may be Confirmed to them, according to their Respective Rights & Titles, & ye particular Titles and Estate of all the Inhabitants of this Province and other purchasers claiming under ye General property may be Confirmed & Settled, I propose this Method to you because I apprehend ye Bill, which was prepared ye last year will not attain ye Ends intended; That these things may be brought to perfection with ye care & Dispatch, ye nature of them Requires, I most Earnestly Recommend to you all, Unanimity in your Consultations, ye Debates may be carried on with that Decency, with ye Good & welfare of ye Country Requires. I Intreat you to lay aside all animosities, with may have been occasioned by former misunderstandings, by this means you will Easily finish the Bills I have proposed to you, and such others as you may fit to Offer to me, for ye Service of ye Queen and ye Good of ye Country, with I am sure ought to be Inseparable; I have nothing further to Ask at present, but to Recomend to you Dispatch, ye by the shortness of this Sessions, I may be able to Attend Her Majesty's Service at New York, in ye beginning of ye next month.

matters I had recomended, to you, and such others as you thought necessary for ye Good of ye Province. I rely'ed on these promises, and it is w'th a great deal of Concern, ye I am forced to say, ye you have had no manner of Regard to these promises, Ye Two Bills which I believe all mankind will agree are ye most necessary (because ye one was to provide for ye Support of ye Govern't & ye other for ye Defence of ye Country) I mean ye Bill to Settle ye Revenue & ye' to settle ye Militia of this Province, have been so little Regarded, ye ye' first was not brought into ye His till Tuesday last, a day so late in point of time, ye' everybody knows it is Impossible for me to stay to pass it, if it were a Bill proper to Answer ye Ends, for w'th it ought to be Intended, ye' other has not been thought of by you, tho' of so great use for ye Defence of ye Countrey. And I will submit it to ye' Judgment of any Impartial men, whether it is possible for any Countrey or Province in ye World to Thrive or Indeed to Subsist, when neither ye' Govern't is provided for, nor ye' Countrey put into a posture of defending itself, agst any Enemy, should any attempt to Invite. This is ye' 2d Sessions ye' you have had an opportunity to do those things w'ch would have settled this Province upon a lasting foundation of Peace & Happiness. I am well satisfied both ye' Queen & ye' People expected it from you; who has prevailed upon you to neglect things so necessary for ye' welfare of ye' whole, I know not, however I shall always endeavour to do my Duty, Therefore ye' I may see whether there may not be found persons inclined to support Her Maj'ye's Gover't in this Province, as it ought to be, I do think it fit to dissolve this present Assembly & and pursuant to ye' Power to me Granted, by her most Sacred Maj'ye the Queen, under ye' Broad Seal of England, this Assembly is Dissolved.

Ordered That they be Admitted, & being Admitted They did produce Copies of Returns of sev\textsuperscript{e} Surveys of Lands possesst by them in order to prove their Qualifications to sit as Members of this House.

Mr. Speaker Reported, That His Excy was pleased on Wednesday last to make a favourable speech to y\textsuperscript{e} House, of w\textsuperscript{ch} (to prevent Mistakes) he had obtained a Copy, w\textsuperscript{ch} was read, being as follows viz.

Gentlemen,

The Season of y\textsuperscript{e} Year being so far Advanced, & my Attendance at N. York, upon y\textsuperscript{e} Service of y\textsuperscript{e} Great Queen of Eng\textsuperscript{d} my Mistris, necessary, I shall for this Sessions, Recomend to y\textsuperscript{e} Considera'ons, such things only as I think of Absolute necessity to be done, for y\textsuperscript{e} well being of y\textsuperscript{e} whole.

First then I shall lay it Down as a Rule, (w\textsuperscript{ch} I believe will be allowed by all reasonable men) That no considerable number of men in any part of the world, can thrive either in their pub- lic or Private concerns, or indeed subsist long, w\textsuperscript{th}out a Settled Govern\textsuperscript{mt} by which y\textsuperscript{e} Injured may be protected, & to w\textsuperscript{ch} all may have recourse, for Justice,—And it is likewise necessary y\textsuperscript{t} Govern\textsuperscript{t} should be supported by such a Provision, as will answer all y\textsuperscript{e}. Contingencies of Govern\textsuperscript{mt}, And certainly if any people in y\textsuperscript{e} universe, are more in Duty bound than others, to support and maintain y\textsuperscript{e} Govern\textsuperscript{t} under w\textsuperscript{ch} they live, it is those whose propitious Stars have placed, under y\textsuperscript{e} Crown & Laws of England, y\textsuperscript{e} mildest Govern\textsuperscript{t} & y\textsuperscript{e} wholesomest Laws in y\textsuperscript{e} Known world, & Especially now, y\textsuperscript{t} we have a Queen, not only Great & Extremely Good, but like a true Mother of her Coun- trey, always watchful for y\textsuperscript{e} good, Quiet, happiness and pros- perity
perity of her people. How happy are those people who are blest with an opportunity of shewing ye least symptom of their Gratitude to so Gracious a Sovereign, These Considera'ons Added to Her Ma'ties Comands to Me, Oblige me to Recomend these following heads to ye Considera'ons,—First ye such a Revenue be settled on her Most Sacred Maj'v the Queen, as will be sufficient to Support ye Govern'mt w' th ye dignity, w' ch ye Na-
ture of it Requires.

2ndly That a Bill may be prepared to put ye Militia of this Province into such a Posture, as they may be able to defend ye Countr'ey, if any Enemy should make any Attempt upon us, w' ch is of Absolute necessity, now we are in a State of War.

3rdly I shall Recomend to you, to prepare such a Bill or Bills, as may effectually settle ye Estates of ye Gen'l Prop's & likewise of all persons, who have had Grants, or made purchases of Land in this Province.

Lastly, Gent: I Recomend it to you to prepare A Bill for ye making, Repairing & preserving all public & Comon High-
ways, & Bridges ; This is all I shall Recomend to you at pres-
ent, if there is anything Else, w' ch you may think proper to be done, at this time, you shall always find me ready, to Contrib-
ute my utmost Care, and pains towards ye promoting anything ye may be for ye Service of ye Queen, & ye good of ye Country, w' ch are inseparable, & will never be attempted to be divided, but by those who have a mind to destroy both. That you may attain ye good ends proposed, I earnestly Recomend it to you to lay aside, all manner of Animosity or ill will towards one another, w' ch may have been occasioned by former proceedings, unanimity in your proceedings, Calmness in your Debates, & Dispatch in ye Matters before you—

Resolved, That this H's will take His Excell'v's speech into Considera' on tomorrow morning & then
The H's Adjourn'd till tomorrow 9 a Clock.

A Message from his Excellcy by ye Clerk of ye Council, Acquainting ye House That his Lord' had Comanded their Attendance,
Attendance, immediately in Council, Whereupon ye House went immediately and Acquainted his Excellency that they had Chosen Sam' Jennings Esq' their Speaker. And then did Receive from his Excellency ye following speech, which was Ordered to be read immediately viz:

Gentlemen,

I am glad to see you, so full an Appearance at the beginning of the Sessions, I could have wished the rest of the Members had attended their Duty to ye Queen & their Countrey likewise, for I must be of opinion ye business is always best done in a full House.

The first thing I shall Recommend to ye Consideration of you Gentlemen, of ye House of Representatives & which I have in Command from ye Great Queen of England, my Mistress is, That you may settle such a Revenue upon her Majesty, as may be sufficient to support ye Dignity & Supply all ye necessary Charges of ye Govern't. And because it has been Represented to ye Queen, ye Countrey is not yet able to Answer very great Taxes, her most Sacred Majesty, who is always solicitous, not only for ye Welfare, & happiness but also for ye ease of all her Subjects, as far as it is possible, has comanded me to Acquaint you she is graciously pleased to Accept of Fifteen hundred pounds a year, in lieu of Two Thousand, which was Granted for two years, ended on the 13 Day of X brs last, I am likewise to Acquaint You, That ye Queen expects it should be settled for One & Twenty years.

The next thing which I most earnestly Recommend to your serious Consideration is ye preparing a Bill or Bills, whereby ye Rights & property of ye Gen'l Prop'r to ye Soyl of this Province, may be Confirmed to them, according to their Respective Rights & Titles, & likewise for ye Confirming & Settling ye particular Titles & Estates of all ye Inhabitants of this Province, & other purchasers, Claiming under ye Gen'l Proprietors. This I must observe to you I have Recommended to ye Assembly every Sessions, since I had ye honor to serve her Ma'y in ye Gov't of this Province, what has hindered it till this Time, I will not undertake to say, but sure I am, nothing can contribute more to ye Settlement wellbeing and Happiness of ye people & Country, as ye doing this as it ought to be, I hope this Assembly will have ye Good luck to find ye Right Methods of Attaining these great and good ends, in which no Assistance of mine shall be wanting.

I must observe to you That ye Highways directed to be laid out
out by a former Act of Assembly, of this Province, have not been laid out according to you laws Directions of that Act, tho' the Commissioners have been often called upon to do their Duty. I cannot but take notice, that you Bridges are in so ill a Condition after any sudden rain it is very dangerous to go over them, I think if a Tax were laid for building of Bridges & good managers, Appointed for laying out that Money, & seeing you work Effectually done, it would not only be a Conveniency & safety to Travelers and Traders, but it would be less charge and trouble to you people, for then a very small charge, with Care, would maintain them many years.

I think it my Duty to Recomend to you preparing a Bill for you settling your Qualifications of persons to Serve upon Juries, you lives of men & your Titles of their Estates are often lyable to be call'd in Question, & I think you it is not proper, you every idle person should be capable of Serving upon those Occasions,

Gentlemen,

I have often Recomended a view of your Laws in force in this Province before you Govern was Surrendered to her Majesty perhaps some may be found fit, to be enacted in your Same words they are now Conceived, or at least w'th some Amendments, may be made fit for your Queen's Approbation, if any such are you shall always find me ready to receive them—

I must further Acquaint you, Gentlemen, That her most Sacred Majesty your Queen who is desirous, you all her subjects may equally enjoy your benefit & Advantages of Trade, w'thout incroaching one upon another, Expects That a Bill or Bills be past, to lay your Same Dutys & Impositions, upon Goods imported into or Exported out of this Province, as are paid by her Subjects of the Neighbouring Province of New York, you by that means her Subjects there & here may be upon an equal foot.

I cannot conclude w'thout putting you in Mind, That your Act for settling your Militia of this Province, is Expired by its own Limitation, I propose to you your Reviving of your Act for your ease of your people, for if it is not Revived I must Govern myself with respect to your Militia according to your Laws of English, w'th will not be so easy, especially to some people, as your Act was.

These Gentlemen are your things I thought proper to Recomend to you at this Time, if there be anything else for your Service of your Queen, & Real good & welfare of you Countrey, (w'th I must say are in their own Natures Inseparable) w'th you think ought to be provided for by a Law, you shall always find me ready, to
to Imbrace and as far as in me lies to encourage such things; I have nothing more to add, but to Recommend to you dispatch in ye Affairs before you; And ye best way to Attain that will be to lay aside all private Animosities, ye you may ye more freely apply all your thoughts & your Time to the service of ye Queen & ye Country.

The Speaker then Reported That he had, in behalf of ye House, Requested of his Excellency, That ye Accustomed Privileges may be Granted unto ye House, wch his Excellency was pleased to Grant as follows, vizt: That they may have Freedom of Speech; That they may have free Access to his Excellency's person, when occasion shall Require. That ye Members with their Servants may be free from Arrests during ye Sessions, & then

The H's Adjourned till 4 a Clock.

P.M. ejusd. diei

A Message from his Excellency by ye Clerk of ye Council, acquainting this House, that his Excellency did require their Attendance in Council immediately, and then ye Speaker left ye Chair and wth ye House went to Attend His Excellency. And being returned
The House Adjourned to 3 a Clock.

P. M. ejusd diei,

Mr Speaker Acquainted ye House, that he had receiv'd from his Excellency a Copy of ye Speech wth he was pleased to make unto them in ye forenoon, which was immediately read, and is as follows vizt:

Gentlemen,

The Reason of my requiring yo Attendance at this Time is, because in Reading of your Votes of Yesterday, I observe you are falling into several irregularities, therefore I think it my Duty to take notice to you of them, ye such things may be avoided from wch no Good can ensue, but only an Interruption & hinderance of ye public business, to ye Manifest prejudice of her Majesty's Service, & the good & welfare of the people in general.

The first thing that I shall observe is, that you being Resolved into a Committee of ye whole House, have turned out ye Clerk, who is a Sworn Officer, & a man of known Integrity, this, Gentlemen, is without precedent, an Act I dar be bold to say No Committee of ye Whole House of Commons in England ever Attempted.

The next thing is a greater irregularity, if possible, than this, for you appoint one of yo Members to be ye Clerk, by which you deprive a Member of his Right of Debating & Voting, for a Clerk can neither Debate nor Vote, this is what you cannot do; & is in itself extremely Irregular, & therefore Ought carefully to be avoided. The best Advice that I can give you upon this Occasion is that you Return to yo House & proceed Calmly upon the Weighty matters before you, like men determined to do their Country Service.

I am well satisfied that ye people in Gen Expect to have ye Titles & possessions of their Estates, Settled & Quieted by some Good Act or Acts to be passed in this Assembly. The Queen expects to have a Revenue Settled, there are other Matters of great
great Moment before you, wch will Imply yr Time much better, than unnecessary Disputes & Irregular proceedings will do. If there are any Grievances, wch any person in this Province think they may labour under, you have an easy Remedy by making them known to me, & this Board, & when they are so made known, if they Appear to be really such, I dar' Assure you they will be very speedily Redrest.

I Exhort you once more Gentlemen, to Return to yr House & give such Dispatch to ye Weighty matters before you, as the nature of them will reasonably allow of. This, Gentlemen, is what I thought proper to say to you, on this Occasion.

Whereupon a Motion Was Made & the Question put, That his Excell'y said Speech should be considered in ye House or Referred to a Comittee of the whole House.

It was Resolved That it should be considered in the House, & yr they should proceed to ye Consideration of the Same immediately.

And accordingly ye House did proceed to yr Consideration of his Excell'y Speech, & after some Debate thereon ye Question was put, Whether this House is still of Opinion That a Comittee of yr whole House may Chose their own Clerk or not? Which was past in yr Affirmative, And Then

The Hs Adjourned till tomorrow 8 a Clock.

DIE JOVIS, A. M. 10th Apr 1.707

A Motion was made & yr Question put, That this House Resolves itself into a Comittee of the whole Hs to Consider farther of his Excell'y s Speech, It past in yr Affirmative Nemine Contradicente;—And after sometime spent therein, Mr Speaker Resum'd yr Chair, & Mr Lewis Morris Reported from yr s Comittee, That yr Comittee of yr whole House being set, Ordered Wm Anderson, who heretofore & at this present serves as Clerk of the Hs of Representatives to wth-draw from yr s Comittee, they having According to yr Resolution of yr House Chosen another; wch Order, He the sd Wm Anderson Refused to Obey, saying, First, he is Obliged by his Oath, & yr Trust Reposed in him by yr Government to Attend yr Service of yr Hs & Comittees of yr whole House, And yr he is Comanded by yr Crown, to do his Duty in yr Service of yr House.

Mr Lewis Morris likewise Reported, That in a Comittee of yr whole House, which sat on Tuesday last, being yr 8th day of April, yr s Comittee did draw up a paper, wch they directed him to Report, wch was rec'd & is as follows, viz. Upon Debate, in
in a Committee of ye whole House, about ye Choice of a Clerk for ye Committee, Mr Wm Anderson, Clerk of ye House, Insisted to be present at ye Debates of ye Committee, did Offer as a Reason for his being present, ye he was Sworn to discover Debates ye were dangerous to ye Governor, & ye he did not know but ye Committee, were going to have such Debates, & yefore did turn him out, upon ye Chairman Replied, “then you suppose we are going to have such Debates,” & Mr Anderson Answered, “It looks like it.”

Burlington, ye 8th day of April, 1707

Resolved That Wm Anderson Refusing to withdraw from ye Committee of ye whole House, when he was thereunto Required, is a high Contempt, & a great Interruption of ye public Affairs of this Province, on which this House has met.

Resolved, That ye words wth Will Anderson, Clerk of this House, spoke in ye Committee on ye 8th April, is a Misdemeanour & a scandalous Reflection upon ye Members of this House, & then

The Hs Adjourned to 3 a Clock.

Ordered, That ye Speaker have a Copy of every day’s Minutes, as also a Copy of the Minutes of those days, wth are already past.

Ordered That Mr Peter Canson have leave to go home for a fortnight upon Extraordinary Occasions.

Resolved, Nemine Contradicente, That the Issuing proclamations Granting Patents and Commissions at Fort Ann in New York, relating to this Province is a great Grievance and Contrary to his Excell Letters patent under the great Seal of England, and the powers therein Contained, and that this house will Remonstrate the Same to his Excellency.

Resolved, Nemine Contradicente, That the Secretary's office not being kept in Each Division is a great Grievance and y' this house will Remonstrate the Same to his Excellency, and pray that his Excell will assent to an Act for the Settling the Secretary's office to be kept at Amboy and Burlington.

Resolved that the granting of Pattents to any persons to Cart Goods on the Road from Burlington to Amboy, So as to Exclude Others; or to grant Lycanses to Wherry men, whereby others are Excluded, to ply between Burlington and Philadelphia is a very Great Grievance and that this House will Remonstrate the Same to his Excell & pray y' his Excell will Assent to an Act to prevent Such proceedings for the future.

Resolved Nemine Contradicente, That the keeping persons in prison for Some years after Sentence of death, is a Burthen and Charge to the Countrey and a great Grievance, and that this house will Remonstrate the Same to his Excellency.

Resolved, Nemine Contradicente, that persons Accused for any Cryme, obliged to pay Court fees notwithstanding the Grand Jury Acquitt them, is a great Grievance, and that this house
house will Remonstrate the Same to his Excell and pray that he will assent to an Act for preventing the Same for the future.

Resolved, Nemine Contradicente, That the qualification of any Elector, or the right of any persons Elected to Serve in any assembly is not Cognizable or Determinable Else where then before the Representatives in General Assembly mett and Assembled, Except in Such Cases as are spetially provided for by act of Parlament, or act of General Assembly of this Province.

Resolved Nemine Contradicente, That the Governoars Refusing to Sware or attest three Members of ye house of Representatives upon the groundless Suggestions of Mr. Leeds and Co. Revell two of the Members of her Maj's Councill, by which means they were kept out of the assembly, and taking upon himself the power to Judge of their Qualifications, and keeping them Out of the Assembly after this house had declared them Qualified, till he was Sattisfied on that point is a great breach of the privileges of the house of Represen-
tatives, and an assuming to himself a Negative vote to the freholdiers Election of their Representatives, and that this house will Remonstrate the Same to his Excell and in all humble manner acquaint the Queen’s Maj therewith, and pray y' her majesty will be graciously pleased to Commiserate the Unhappy Condition of her Loyal Subjects in New Jersey.

Resolved Nemine Contradicente, that the putting the former publique Records of the Eastern Division of this province into the hands of Peter Sommons, one that is not Resident in this province, Nor having given Security for the true keeping of the Same, and their being Carryed out of s't Divission, So y' the people cannot have recoarse to them, is a grievance, and that this house will humbly Remonstrate the Same to his Excell, and pray y' his Excell will Assent to an Act to prevent the Same for the future.

Resolved Nemine Contradicente, That the Governour taking upon him either in Councill or out, to prohibit the proprietors Agents, Commonly called the Councill of Proprietors from granting any warrants for taking up of lands, as hath lately bin don in the Western Division of this Province is a great Grievance and an Incroachment on the proprietors Rights, and that this house will Remonstrate the Same to his Excellency.

Resolved That this house, from the Evidences of Several persons taken by the Committee of the whole House, and Sev-
erall petitions Sent to this house, are fully Satisfied that there have bin Considerable Sums of money privately raysed in this province
province by the persuasions of Richard Saltar to procure the dissolution of the Assembly, to get cleare of the proprietors Quitt rent and procure such men to be put in office as the Contributors Should approve of.

Resolved That this House has great reason to believe that the s'd money Was given to the Lord Cornbury, and did Induce him to Dissolve the third Assembly, and by his own Authority keep three members out of the next Assembly—And put so many mean and mercenary men into office, by which Corrupt practice Men of the best Estates are sorely Harrassed and her Majesties good Subjects in this province so Impoverished that they are not able to give that Support to her Majesty's Government as is desired, or as otherwise they would be Inclyned to do.

Resolved Nemine Contradicente that this house Will in all humble Manner Lay the grievances of her Majesties Loyall Subjects in the Province of New Jersey, and the Arbitrary and Corrupt Practices of his Excell the Lord Cornbury at her Maj'ts Royall feet and pray that her Majesty would give her poore oppressed Subjects such Relief as in her Royall Wisdom and goodness She Shall Judge most fitt.

Resolved Nemine Contradicente that this house will Transmit to one of her Majesties principal Secretary's of State the Evidence taken before this House Concerning Several Considerable Sums of Money privately raised and as this house believes Given to my Lord Cornbury, with w't other reasons this house has to Induce them to believe his Lordship was perswaded to dissolve the first General Assembly—&c

A petition to the Queen in Pursuance of the above resolves was read and approved of by the house and the Speaker accordingly ordered to Sign it.

A Letter to the Right Honble Robert Harley Esq' one of her Majts principal Secretarrys of State in pursuance of the above Resolves was Read and Agreed to, by the house and the Speaker accordingly ordered to Sign the Same.

DIE JOVIS A.M. 8° Maii

The House Resolved into a Committee of the whole house, and after Some time Spent therein, Mr Speaker Resumed the Chair,—

Mr Speaker with the house went to attend his Excellency with their Address, and being returned, Mr Speaker Resumed the
the Chair, and then acquainted the house he had presented the
Address to his Excellency and that his Lordship had appointed
the house to attend him on Saturday Eleven of the Clock, to
receive his Answer.

The said address presented to his Lordship is as followeth viz.

May it please The Governour,

We Her May's Loyale Subjects, the Representatives of the
Province of New Jersey are Heartily Sorry that Instead of
Raising Such a Revenue as is by the Governour (as we Sup-
pose by the Queen's directions) Required of us we are obliged
to lay before him the unhappy Circumstances of this province.
It is a Task we undertake not of choyse but necessity, and have
therefore reason to hope that what we Say may meet with a
more favourable Reception.

We pray the Governour to be assured its our misfortunes
Extorts this procedure from us, and that we Should betray the
trust Reposed in us by our Contry did we not Endeavour to
obtain Relief The Governour Encourages us to hope he will
not be deafe to our Intreaties, nor by his Deniall render our at-
ttempts for the best Ends fruitless. We may not, perchance,
rightly apprehend all the Causes of our Sufferings, but have
reason to think some of them are very much owing to the Gov-
ernour's long Absence from this province, which renders it very
difficult to apply to him in some cases which may need a pres-
ent help.

It were to be Wished the affairs of New Yorke would admitt
the Governour oftner to attend those of New Jersey, he had
not then bin unacquainted with our Grievances; and we are
Inclyned to believe they would not have grown to so great a
number.

It is therefore in the first place humbly presented to the
Governour's Consideration that some persons under Sentence
of death for murther have not only remained till this
time Unexecuted (they being Condemned not long after Lord
Cornbury's Accession to this government but often have bin
Suffered to go at large, its possible that the Governour has not
bin Informed that one of these persons is a Woman who Mur-
thered her own Child, another of them a woman who Poysoned
her Husband: The keeping them so long has bin a very great
Charge and how far its a Reflection on the publique adminis-
tration to Suffer Such wretches to pass with Impunity, we dare
not say; but Sure the blood of these Innocents cry's aloud for
vengeance, and Just Heaven will not fayle to power it down
upon
upon our allready Miserable Contrey, if they are not made to Suffer according to their Demeritts.

Secondly we think it a great hardship that person accused for any cryme Should be obliged to pay Court Fees, notwithstanding the Jury have Not found the bill against them, they are men Generally Chosen out of the Neighbourhood, and Should be the most Substantiall Inhabitants, who cannot well be Supposed to be Ignorant of the charecter of the person accused;—nor want as good Information as may be had. When therefore they doe not find the Bill, it is very reasonable to Suppose the accused person innocen; and Consequently no fees due from him; We pray therefore that the Governour will give his assent to an act of assembly to prevent the lik for the future, otherwise no person can be Safe from the practices of designing men or the wicked Effects of a vindietive temper.

Thirdly, the only office for Probate of Wills, being in Burlington, it Must be very Expensive and Inconvenient For persons who live remote to attend at it, Especially the whole Eastern Division,—We therefore pray the Gover will assent to an act to Settle Such an Office in each County or at least in Each Division of this province, and that the officers be men of good Estates and known Integrity in s\textsuperscript{d} County or Division.

Fourthly That the Secretary's office is not also kept at Amboy, but that all the Eastern Division are forced to come to Burlington that have any business at s\textsuperscript{d} office, is a Grievance which we hope the Governour will take care to Redress, it Seeming Inconsistent with the present Constitution of Government Established by the Queen, which doeth not admit one of the Divisions of this Province to Enjoy more privileges than the Other. We therefore Intreat the Governour not to take it amiss that we desire his assent to An Act to be past to oblige the Secretary to keep the office at both places.

Fifthly, The Granting of pattents to cart Goods on the Road from Burlington to Amboy, for a Certain number of Years, and prohibiting others, we think to be a great Grievance; that it is Contrary to the Stat 21 Jac: 1. c. 3. Against Monopolies, and being seoe we doubt not will easily Induce the Governour to assent to an act to prevent all such grants for the future, they being destructive to that freedom Which trade and Comerce Ought to have.

Sixthly. The Establishing fees by any other power or Authority than by the Governour, Councill and Representatives mett in General Assembly, we take to be a great Grievance, Directly Repugnant to Magna Charta and Contrary to the Queen's Express Instructions in the Governour's Instruc-

\[N\]
tions, which Says you are to take care that no mans life, member, freehold or goods be taken away or harmed in our province under your Government Otherwise than by established and known laws,—not Repugnant to, but as much as may be, agreable to the laws of England, we therefore pray that the Governour will assent to an act to be passed to Settle Fees, without which we think no more can be legally demanded than the persons Concerned by agreement oblige themselves to pay.

Seventhly, the Governour putting the Former publique Records of the Eastern division of this province into the hands of Peter Summons pretended agent to the proprietors, one that does not reside in the province, nor has not given Security for the well and true keeping of them, as is by the Queen directed, and kept them So that her Maj’ty Subjects Cannot have Recourse to them, and their being carryed out of the divission is a great and Crying Grievance, They are the only Evidences that one halfe of this Province has to prove the titles to their Estates, and this house is humbly of opinion they ought to be So kept that persons may have Recourse to them, and in the hands of Such of them of whose fidelity there is no reason to doubt, this being a thing soe reasonable Encourages us to request the Governour to Assent to An Act to be past to put them in proper hands for the Future, that the Contrey may not be under the Same disappointments they Now are.

These, Governour, are Some of the Grievances this Province Complaines of,—and which their Representatives desire may be redressed, but there are others of a higher Nature and attended with worse Consequences they cannot be Just to the Governor, themSelves or their Contrey Should they Conceale them,—We did Expect when the Govern’ of the Jerseys was Surrendered, to Feel the benign Influences of the Queen’s mild Govern’ under her More Imediat administration, and to be protected in the full Enjoyment of our lyberties and properties;—the last of which we thought ourselves Something more Secure in then Some of the Neighbouring Plantations, and had an Intire dependance that her Majesty’s Royall bounty and goodness would never be wanting to make us easy and happy even beyond our wishes. It is our misfortune that we must Say the Success has not answered the Expectation, and the queen’s Subjects here have felt the Reverse of what they had most reason to hope; That Greatest and best of princes is without all peradventure Ignorant of our pressures, or we had long Since had relieve, She is too good to Continue even the Deserved Sufferings of the Miserable; and has more of Heaven in her than to heare the Cry of those that groan
groan under oppression and the unkind Effects of Mistaken power, to whom we owe our miseries and what they are the Sequell Shews.

In the first place the Governour has prohibited the proprietors agent's, Commonly called the Councill of proprietors from Granting any warrants for taking up of land, in the western Division of this province; we cannot see by what law or reason any man's property can be disposed of by the Governour without his Consent, the proprietors when they surrendered their Government, did not part with their Soyl, and may manage it as they think fitt, and are not to take directions from any person w'tsoever, how & when to doe it. If any persons Concerned be grieved, the laws are open by which disputes in property are decided and he doubtless will not be left Reamahless, we are very sorry the Governour gives us Occation to Say it is a great Encroachment on the proprietors Lyberties, but we are not Surprised at it, when a Greater Encroachment on our Lyberties lead the way to it, and that, was the Governour's Refusing to Sweare or attest three Members of the last Assembly upon the groundless Suggestions of Thomas Revell & Dav'tt Leeds two Members of the queen's Councill by which means they were kept out of the Assembly—we are too Sensably touched with that procedure not to know what must be the unavoydable Consequences of the Governour's refusing to Sweare which of the Members of an assembly he thinks fitt; but to take upon himselfe the power of Judging of the qualifications of assemblymen, and to keep them out of the house (as the Governour did the aforesd three members nigh Eleven Months till he was sattisfied in that point) after the house had declared them qualified, is so great a violation of the Lyberties of the people, So great a breach of the privileges of the house of Representatives, So much on assuming to himselfe a negative voyce to the freeholders Election of their Representatives, that the Governor is Intreated to pardon us if this is a Different treatment from what he expected; It is not the Effects of passionate heats or the Transports of Vindictive Tempers, but the Serious Resentments of a House of Representatives For a Notorious violation of the liberties of the people to whom they could not be just nor answer the trust reposed in them Should they declyne letting the Governor know they are Extremely Dissatisfied at so unkind a treatment Especially when its Causes and Effects Conspire to render it so disagreeable.

It is Notoriously known that Many Considerable Sums of Money have been raysed to procure the Dissolution of the first Assembly,
Assembly, to get clear of the proprietors Quit-rents, and to obtain such Officers as the Contributors Should approve of, this house has great reason to believe the money so gathered was given to lord Cornbury and did Induce him to dissolve the then Assembly, and by his own Authority keep three Members out of the next Assembly, and put so many mean and Mercenary Men into Office, by which Corrupt practice Men of the best estates are Severely harassed, her Maj’t good Subjects in this Province so impoverished that they are not able to give that Support to her Majesty’s Government as is desired or as they Would otherwise be Encloynd to doe, and we Cannot but be very uneasy, when we find by these new methods of Govern’t our Lyberies and properties so much shaken that no Man Can Say he is Master of either, but holds them as Tenant by Curtosie, and at will, and may be stript of them at pleasure—Lybery is too valuable a thing to be easily parted with, and when such mean Inducements procure such violent Endeavours to teare it from us, we Must take leave to Say they have neither heads, hearts, nor Souls that are not moved with the Miseries of their Contry and are not forward with their utmost power Lawfully to Redress them—

We Conclude by advising the Governour to Consider what it is that principally Engages the Affection of a people, And he will find no other Artifice needfull, than to let them be unmolested in the Enjoyment of what belongs to them of Right, and a Wise Man that despises not his own happiness will earnestly labour to Regain their Love—

DIE LUNAE A. M. 12° Maii 1.707

Mr Speaker with the House went according to his Excellency's Message by the Clerke of the Councill to receive his Excell Answer to the address presented his Lordship Thirsday last, and after about two hour's Stay, not being Admitted, they Returned and Mr Speaker Resumed the Chaire, and then

The house adjourned 'till 4 h" P. M.

P. M. Ejusd Diei.

Mr Speaker acquainted the house that the Clerke of the Councill had told him that his Excellency Required their attendance at four of the Clock in the Afternoon.
Mr Speaker with the house went to wait on his Lordship accordingly and having received his Lordship's answer—they returned and the Speaker resumed the Chaire.

His Excellency's said Answer is as followeth—

Genl

On thursday last I received a paper from you which you call a Remonstrance, I then told you it was of an Extraordinary Nature and contained many particulars, which though they lay open enough to receive an immediate Answer, yet because I would not put it in your power to say I had given you a Rash, Inconsiderate Answer, I would make no Return to it till the Saturday following, at which time, I sent you word by the Secretary that I should not expect your attendance till this day.

I shall not take notice of anything in your Preamble but the two last clauses of it, in the First of which you say, that you have reason to think that some of your Sufferings are owing to the Governour's long absence from this province, which renders it very difficult to apply to him in some Case that may need a present help.

This is so far from being true, that besides My being twice in this Province every yeare, and have never Staid less than a Month Sometimes Six weeks or more, the post goes every week to New Yorke by which I may be Easily Informed of any Emergency. Moreover the Lwtenant Govern, Coll Ingoldsby Resides Constantly in this province and would certainly have done Right to any persons that would have Complained to him, which makes this allegation very frivolous.

In the next Clause you say, it were to be wished that the affairs of New Yorke would admit the Governour oftner to attend those of New Jersey.—The affairs of New Yorke have never hindered the Governour from attending those of New Jersey, whenever it has bin Requisite, and I can Safely Say I don't know of any grievances this province Labours under, Except it be the having a Certain Number of people in it, who will never be faithfull to nor live quietly under the Government nor Suffer their Neighbours to Enjoy any peace, quiet or happiness, if they can help it.

I now begin with your Articles.

Two women who have been Condemned for murdering, have not bin Executed, there having appeared most Notorious malice & Revenge in some people, who were Zealous in those prosecutions, the Queen is the fountaine of honour, Justice and Mercy,
Mercy, and as She is so, She may when She pleases Exert her Mercy, either in Repreiving or Pardoning Any Criminall; that power of Pardoning & Repreiving, after Condemnation, the Subjects of this province, her Majesty has bin pleased to Entrust me with, and I am no ways accountable to any person or Number of persons Whatsoever For What I do in those Matters, but to the Queen's Majesty alone.

As for what you say with Relation to ye apprehensions you have that Just Heaven will not fayle to pour down Vengeance, upon your already Miserable Country if these Criminals are not made to Suffer according to their Demeritts.

I am of opinion that nothing has hindered the Vengeance of Just heaven from falling upon this province long age, but the Infinite mercy, Goodness, long Suffering and forbearance of allmighty God, who has bin abundantly provoked by the Repeated Crying Sins of a perverse generation among us, And more Especially by the dangerous & abominable Doctrines, and the wicked lives and practices of a Number of people, Some of whom under the pretended name of Christians have dared to deny the very Essence and being of the Saviour of the world.

2nd It is a strange thing that Such an assembly of Men as the Representatives of the people of this Province are or ought to be, Should Complaine of anything under the Name of hard-ship, before they had Informed ymSelves whether the thing they had a Mind to Complaine of, were really a hardship or not;

This plainly your case at this Time, for if you had asked any man, that knows anything of the practice of the law in Eng-land, you would have found that if any proceedings had bin carried on against any persons Supposed to be guilty, they have allways paid the Court fees, notwithstanding ye Grand Jury have not found the bill, and this is so known a Practice that it is not to be disputed, But when men will Intermeddle with or pretend to things which they neither know nor understand, they Cannot fayle of misleading themselves, and misleading those that have a mind to be Guided by them.

Indeed if Jurys in this Country were as they ought to be, the Supposition might in Some Measure be allowed, but we find by wofull experience that there are many men, who have bin admitted to Serve upon Grand and petty Jury's, who have Convict the world that they have no Regard for the oaths they take, Especially among a sort of people who under the pretence of Conscience refuse to take an Oath, and yet many of them under the cloke of a very Solemn affirmation, dare Com-mitt the greatest Enormities, especially if it be to Serve a friend as they call him, and these are the Designing men, and the
the vindictive Tempers, of which all the Queen's good Subjects ought to beware, and be protected from, and these are the Crying sins which will undoubtedly draw down the vengeance of Just heaven upon this Province & people, if not timely and Seriously Repented of.

3. If I could persuade myself to wonder at any of the Enormities Contained in this Remonstrance (and which I would doe if it came from any other men) it Should be at this, because no reasonable man can perswade himselfe to believe that a number of men Chosen by their Country to Represent them would presume to Complaine of a thing as a Grievance when the thing Complained of is in fact not true, for the office of Probate of wills, is wherever the Governor is, Consequently not at Burlington only, Ever Since the Queen has done me the honour to Entrust me with the Government, of this province, I have never failed of being in the Province twise every yeare, once at Burlington and once at Amboy, except the last yeare that I had the unspeakable Misfortune of loosing a wife, whom I loved as my own Soul, after a very long tedious Sickness, during which I'm persuaded no reasonable man could Expect I should leave her for any time, and yet notwithstanding that I was twise in Amboy last yeare, where anybody that had a Will to prove, might have had it done if they had pleas. Besides my being twice every yeare in the Province Considering the Remoteness of Cape May County and the County of Salem, I did appoint a Surrogate at Burlington before whome any of the Inhabitants of Either Division might have had their Wills proved, I did not think it Necessary to appoint one in the Eastern Division, because the Inhabitants of that Division who are most Remote from New Yorke are within a very easy days Journey of my Surrogate at Burlington, and much the Major part of the people of that Division are within a small days Journey of New Yorke, where their private affairs dayly calls many of them, and where any of them may have their wills proved without any Injury to or Incroachment upon their Properties, Rights or privileges, this is so certaine a truth, that I am persuaded all Judicious & Impartial men will look upon this Complaint to be Malicious, Scandalous & frivolous, Contriv'd only to amuse poore Ignorant people with Notions of Grievances, when in truth there is no manner of Cause of Complaint, besides what you desire is a direct Invasion of the Queen's prerogative, for it belong to her Majesty alone to appoint who shall be probate of wills, and grant letters of administration, and that power the Queen has bin pleased to rest in the Governour, and I am sure I will never so far betray the trust
trust her Majesty has hon'rd me with, as to Sacrifice her prerogative, Royall, to the Humours of any person or persons whatsoever, but of all the people in the world the Quakers ought to be the last to Complain of the hardships of travelling a few miles upon Such an occasion, who never Repine at the trouble and Charges of travelling Several hundreds of miles to a yearly meeting, where it is evidently known, that nothing was ever done for the good of the Country, but on the Contrary Continall Contrivances are Carried on, for the undermining of the Government both in Church and State.

4 you have had as little Regard to the truth of matter of fact in this Complaint as in Some of the rest, for it is certaine that the Secretary's office is kept at Amboy, as well as at Burlington, as far as the nature of the thing Requires, and it can admitt of, for the Records of the Eastern Division, or at least so many of them as the Agent for the proprietors of that Division could heitherto Recover from one Thomas Gordon into whose hands they were put in the time of the proprietors Gover'mt, and who has Imbezzled Sev'ral of them for w: he must be answerable, There is a Supream Court held once every yeare at Amboy, there is no more at Burlington, So that one Division does not Enjoy more privileges and advantages than the other, and you have no more reason to desire a Secretary's office to be Settled at Amboy, than the people of the County of Cumberland would have to Desire a Secretary of Estates office to be Settled in their County, because it is a great way for them to travel to London, when they have any business in the Secretary's Office, the thing is Inconsistent in itsSelfe, to have two Secretaries office in the Same province, and Consequently unreasonable, and I am pretty well Satisfied without precedent;—Besides I don't know anybody that can Claim the Right or power of appointing a Secretary in this province but the Queen, and she has bin pleased to appoint one under the Great Seal of England, and her majesty is pleased to think one Sufficient, as undoubtedly it is, but if you had thought that another had been necessary * would have been much more Modest to have acquainted me with it, that I might have humbly Represented it to her majesty, rather than to have Remonstrated that as a Grievance, which is done in pursuance of the Queen's Commandes; But this is of the Same nature with the rest of y' Complaints, Contriv'd on purpose to amuse the povere Ignorant people, with a Notion of Grievances, when in truth there is not the least Colour or Cause of Complaint—

5 I could wish (Since you had a Mind to Colour this Complaint with the Authority of an Act of parlament of England) that
that you had advised with Some Lawyer to know whether this
Could be anyways brought under that Statute, or can by any
Construction in the World be Called a Monopoly, but where a
man Engrosses a comodity into his own hands, and Imposes
what Unreasonable prices he pleases upon that Commodity, or
where a Man is Suffered to Enjoy any trade or occupation
Exclusive of others to the prejudice of the publique, or par-
ticularly to the hindring or Burdening of Trade. The thing
now Complained of is So far from being of that Nature, that
it is directly Contrary, for by the pattent now Complained of,
the Subjects of this province have the Conveniency of Sending
Such quantities of goods to and from Burlington and Amboy,
as their Private Occations or the Nature of their trade requires,
at reasonable and unCertain Rates, and at Certain times, which
they never could doe before, for before the Settling of this
Wagon, if any persons had any Occation to Send any
goods to or from Either of those places, they were forced
to Hyre a Waggon tho perhaps they had Not the tenth
part of a Load, and were forced to pay Such Rates as
the Owner of the waggon thought fit to Impose upon
them, whereas at present Every body is Sure once a fort-
night to have an opportunity of Sending any quantity of
goods, great or small at reasonable rates without being in
danger of being imposed upon, at the will of the owner
of the waggon, and the Settling of these Waggon is So
far from being a Grievance or a Monopoly, that by this Means
& no other a trade has been Carried on between Phila-
delphia, Burlington, Amboy & New Yorke, which was never
known before, and in all probability would never have bin,
had it not been for this certaine Convenient way of Send-
ing Such quantities of Goods as people pleased from place
to place, And in all parts of Europe the having publique Car-
riages, for Goods, has always been Esteemed of absolute
Necessity, and the wan of them has bin look upon as a
hardship—but it Seems those things which in the wisest and
best Governments in Europe have not only been thought Con-
venient but esteemed of absolute necessity are found out
by Some of our wiser people here, to be Grievances and
Monopolies. This being undoubtedly true, it plaine the pat-
tent Complained of, Cannot come within ye Stat. of ye 21
Ja's. Cap 3. This I believe will be Sufficient to Convince all
reasonable men how frivolous and unreasonable this Complaint
is. I Shall observe that when I was first Applyed to for a
Pattent for the allowing this Waggon, which was by one
Dell, (a man who in Co\textsuperscript{11} Hamilton's time was permitted to
to drive a Waggon for carrying Goods) tho' under no Regulation, Either with Respect to times of Going or prices for Carrying Goods, and there was no Monopoly) before I would grant it, I did acquaint the Council with it, and desired them to let Me know, if they apprehended any Inconvenientcy in granting Such a patent, those Gentlemen were all of opinion there could be no Inconvenienty in it, but rather a great Conveniency, and indeed Experience has proved that opinion to be true, Nay, m' Lewis Morris himselfe, the Chiefe promoter of these unreasonable and frivolous Complaints at this time, who had the honour to be one of her Majesties Council, expressed himselfe very fully to that purpose, Indeed had that Gent Ever bin Consistent with himselfe in any two actions of his life, I should wonder how he could So Soon alter his opinion, in a case of that Nature; but his behaviour at all times, having fully Convincet the world, that he never was So, makes me cease wondering.

617 This Clause of your Remonstrance is Indeed of a more Extravagant Nature than the former, for you presume to call that a great Grievance, and affirm it to be directly Contrary to Magna Charta, and Contrary to the Queen's Express Directions in the Governour's Instructions, which is most Certainly Exactly pursuant to and Obedience of the Express words Contained in the Queen's Instructions to the Governour, so that you make the Governour's faithful Obedience to the Instructions the Queen has honoured him with, to be a great Grievance, which is no less, than accusing her most Sacred Majesty the best of Queens, of Commanding her Governour to doe things which in y'm'selves are great Grievances, how gratefull a Return this is to her Majesty for the Repeated Favours she has bin pleased to Shew to this province & people let the world Judge.

That clause of my Instructions which you Recite in this Article has no manner of Relation to Fees, Indeed there is another Clause in my Instructions, which directs how and by whome all Fees Shall be Settled and the Queen's Commands have been Observed, the words of the Clause are those, And you are with the advice and Consent of our Council to take especial care to Regulate all Salary's and fees, belonging to places or paid upon Emergencies, that they be within the bounds of moderation, and that no Exaction be made on any occasion whatsoever, as also the Tables of all fees be publiquely hung up in all places where Such fees are to be paid,—and you are to Transmit Coppy's of all Such Tables of Fees to us and Our Commissioners for Trade and plantations as afores', And I challenge every one of you and all mankind to shew, how, when
when and where any Man's Life, Member, Freehold or Goods have been taken away or harmed in this Province, Since it came under her majesty's Government other than by Established and known Laws, not Repugnant to, but, as much as may be, agreeable to the Laws of England—

7. When I first read this Clause, I could not Imagine what it was put in for, unless it were on purpose to Arraign the Queen's Express Commands to me—

First m' Lonmans, is not the pretended agent, but the Lawfully Constituted Agent for the proprietors of the Eastern Division, of this Province, and has qualified himselfe according to the Queen's Instructions to me, and he does Reside the Greatest part of his time in the province, the Records are not carried out of the Eastern Division, unless it be those which Thomas Gordon has Imbezelled, but those that came to the hands of m' Lonmans are kept at Amboy, where anybody may have Recourse to them that will desire at any Reasonable hour, and the Country is not Under any disappointment upon that account besides the Records of the Eastern Division were put into the hands of the proprietors Agent by an Order from England, upon a Complaint made in England that the Records were not in the hands of the proprietors Agents.

These Governour are some { of the Grievances }

This is certainly one of the boldest assertions that ever was made especially when there appears no manner of proof to make it out, when I read these two Clauses, for there are two before you come to Enumerate these Grievances of a higher nature, and attended with worse Consequences, I expected to have found myselfe or some other persons Intrusted with me in the administration of the Govern't over her majesties Subjects in this province, not only accused, but made plainly appeare, by undeniable Manifest proofs, beyond the possibility of a Contra-diction to be Guilty of the most Enormous crimes—Who can Imagine when Such a body of men as the Representatives of a Province venture to Say that they did Expect when the Goverment of the Jerseys was Surrendered to feel the Influences of the Queen's mild Govern't under her more Immediate Administration, and to be protected in the full Enjoyment of their Liberty's and properties, the last of which they thought themselves a little more Secure in, than Some of the neighbour-
ing plantations, And had an Intire Dependance that her Majesty's Royall bounty & goodness, would never be wanting to make them Easy and happy—even beyond their Wishes—It's their misfortune they must Say, the Success has not answered the expectation, and the Queen's Subjects here have Felt the Reverse of what they had most reason to hope, that greatest and best of princes is without all peradventure ignorant of their pressures, or they had Long Since had Reliefe, She is too good to Continue even the Deserved Sufferings of the Miserable, and has more of heaven in her, than not to hear the Cry's of those that groan under oppression & the unkind effects of mistaken power, to whom they owe their misery—Who would not, I Say, after Such Assertions, expect to See the Governour proved Guilty, Either of treason or betraying the trust Reposed in him, by the Queen, by depriving the Subjects of their lives their Estates or properties, or at least denying them Justice, and perverting the laws to the oppression, Instead of Administering them for the Protection and preservation of the people Committed to his Charge, these or the like Crimes manifestly proved, are the only things that can Justify men in the Accusing a Governour of Corrupt practice, & of Shaking the Lyberties & properties of the people, but if none of these things can be proved, but on the Contrary it does appear plainly, that no one Act of Severity, much less of Injustice or oppression has been done Since the Govern't of this Province came under the Queen, but that there has been an Impartial, Just and Equall Administration of Justice observed thro'out the whole Course of my government, and that many acts of mercy have been Extended to persons, who deserved to be Severely punished, then what Sort of Creatures must these bold Accusers appear to be, in the Eyes of all Impartiall and Judicious men, That these are truths beyond all Contradiction and which all the people of this Province know, I doe Challenge you and every one of you to prove the Contrary. And tho I know very well that there are Severall Unquiet Spiritts in this Province, who will never be Content to live quiett under any Government, but their own & not long Under that Neither, As appears by their Methods of proceeding when the Government was in the hands of the prop's when many of these very Men who are now the Remonstrancers, were in authority and used the most arbitrary and Illegall Methods of proceeding over their Fellow Subjects that were Ever heard of. Yet I am Sattisfied there are few men in the Province, Except Sam' Jennings & Lewis Morris, Men Known Neither to have good principalls nor good Moralls
Morals who have ventured to accuse a Governour of Such Crimes, without any proof to make but their accusation but they are Capable of anything but good;

But that the unreasonableleness of these Complaints may appear the plainer, let us Consider what these Enormityes of mine are, that have turned the benign Influences of the Queen's mild Goverment into oppression and the unkind effects of Mistaken power.

First by the Instructions her Most Sacred Majesty the Queen has hon'd me with, I am to allow all Such Agents as the Generall Proprietors Shall appoint, Such Agents qualifying themselves by taking Such Oaths as the Queen is pleased to direct and no others, No persons under the name of a Councill of proprietors have ever Tendered themselves to take those Oaths, Consequently they are not Capable of acting as Agents, Besides I Say, those people who call themselves a Councill of propr's are a parcell of people pretending to act by a power derived from certaine persons, who have no power to grant, the Governour has therefore done in this Case Nothing but his Duty in hindering as farr as in him lay that pretended Councill, of proprietors, from acting Illegally, which they have long done to the prejudice of her Majes's Subjects. This is a truth I cannot doubt of, because besides the other reasons I have to Satisfie me in y' point, you have voted my putting the Records of the Eastern Division into the hands of Peter Lonmans—to be a Grievance, tho. m' Lonmans has qualified himselfe long agoe, So that y' Councill of Proprietors not having qualified themselves at all is a much greater Grievance.

By the Queen's Instructions to me, She is pleased to direct, that no person Shall be capable of being Elected a Representative, by the freeholders of Either Division, or afterwards Sitting in Gen Assembly who Shall not have One Thousand Acres of land of an Estate of freehold in his own Right, within the Division for which he shall be chosen, Two gentlemen of the Councill Informed me, that these persons whose names they then mentioned, were not qualified, upon which I Refused to take their attestations, (for they were all quakers) and in So doing I did my duty, I Recommended it to the Assembly at that time, to proceed in the first place to Inquire into that matter, but they did not think fitt to doe it, till they had satt about three weeks, and then they Sent me a Message to desire those three members might be Sworn, for they were Satisfied they were qualified, I Sent them word, that if they would Commu-
nicate to me the proofs which had Satisfied them, I Should be ready to admitt them, but that they would not doe; in Some few days the assembly was adjourned to meet at Burlington, where they mett at the time appointed and sent me the Sanfe message as they had done before, I Sent them the Same answer, upon which they ordered the three members to pro-
duce to me the proofs of their Qualifications, which having done I admitted them Immediately, which I could not doe be-
fore w’t hout breaking the Queen’s Instructions, So that it was Intirely thro their own Stubbornness that they were not admit-
ted sooner, and no Intent or desire of mine to keep them out; If I had a mind to keep any Members out of the house I could have made objections which they could never have answered, but Such practices are below me, and it is not true I have made any Violation of the Liberty’s of the people, nor have I assumed to myself a Negative Voice to the Freeholders Election of Representatives, as this House of Representatives has lately most notoriously done, but of that more anon

Indeed the treatment I have met with from this House of Representatives is far different from what I and all Reasonable Men Expected from Most of them, thinking them Endowed with reason and common Justice to mankind, but it is not dif-
ferent from what I expected, from Sam’ Jennings and Lewis Morris, two men notoriously known allways to have bin dis-
turbers of the Quiett and peace of this province, men allways possest with passionate heats, & the transports of most Vin-
dictive temper, but never Capable of Such Serious Resentments as would become a house of Representatives, if there were any Occasion given them to Shew any, how they have bin able to prevail with the Major part of the house, to Joyn with them in Destroying as far as in them lay, the Reputation of a Gent who has the honour to Serve the Queen as Governour of this Province, & is so farr from Deserving such treatment from them, that he has allways done to the utmost of his power for the good, wellfare and prosperity of this province and people—
and would have done much more if the assembly would have put it into his power, by preparing Such bills as the Governour at the beginning of Every Session has Recommended to them, and the Condition of the Country Required, but that they must answer for to God and their own Consciences and perhaps one day to me—

Whether many considerable Sums of money have bin Raised or not, I know not, and if they were Raised, for what Intent and purpose they were Raised I know not, but this I know, that if any money was Raised, it was not given to me, nor was

Ever
Ever any money offered to me to procure the dissolution of the first Assembly, or to get clear of the proprietors Quit-rents, or to obtain such officers as the Contributors Should approve of—as is falsely alleged—The reasons why I dissolved the first Assembly were Evident to all Mankind, for it was plain that house never Intended to do anything for the Support of the Queen’s Government, nor for the good of the Country, and Indeed ’tis better Could not be Expected from an assembly So Corruptly Chosen as that was, for some of the now Remonstrancers and some other people prevailed with Thomas Gordon then Sheriff of the County of Middlesex, to Refuse a Poll when demanded, and when the people Injur’d by that practice Complained to the House of Representatives, they had a day assigned them to be heard, but were Limited to bring but twenty Witnneses, the people attended at the day appointed with the number of witnesses they were allowed to bring, but were then by the House Refused to be heard, not only by themselves, but by their Councill, and their witnesses Refused to be Examined—tho’ at the Same time they heard Thomas Gordon who was Complained against, and did examine Some witnesses on his behalf, upon which the petition of the Complainants was dismist,—thereby Supporting the Illegall proceedings of the Sheriff, this was a violation of the Rights of the people with a vengeance, And a Sufficient reason (if I had no other) for the dissolving that assembly, that the people might once more have a free Choyce of ten Representatives; As for getting Clear of the proprietors Quitt rents it is Such an absurdity to Mention, that no body would be guilty of it, but Sam’l Jennings and Lewis Morris, for it is evident that at y’n beginning of Every Sessions, I have Recommended it to the assembly to prepare a bill or bills, for Settling the Rights of the proprietors, which I Suppose will be a full answer to that part, and as I know of no such men as Contributors, So I can have no Such application made to me. I have not knowingly put any mean or Mercenary men into office, Indeed at my first Coming into the Goverment of this province I desired the gentle[r]m of the Councill to Recommend persons to me fitt to be put into office, military and civil, Several of them gave me lists and amongst the Rest Mr Lewis Morris gave me one which I have still by me, in which indeed by Experience I find there are Some meane Scandalous Men, but I can’t accuse anybody Else of doing the Like.

Thus much I thought myselfe obliged to Say in answer to your Remonstrance, to Satisfie the world of the falseness of your allegations, and the unreasonableness of your Complaints,
I have Said the less in answer to the Scandalous Reflections you have cast upon me, because I do not doubt but upon my most humble application to her most Sacred Majesty the Queen, She will be graciously pleased to allow me to take Such measures as may be most proper to procure an ample Satisfaction, for the great and Extravagant Injuries you have don me.

As for the advice you Conclude with I Shall only Say, that I can never answer the taking advice from men who do not know how to Govern themselves, and who have allways opposed the Service of the Queen, and the Interest and good of the country, which are Inseperable.

Now, Gent. I shall take Notice to you of Some of your late unaccountable proceedings in this assembly, which I can't by, without a breach of the trust reposed in me by her majesty; And first I Shall observe that at the opening of the Sessions, I Recommended to you the Settling of a Revenue, and the preparing Severall Bills which I thought Might be useful for the Country, and I told you, that if you found anything else necessary, to be provided for by a Law, you should always find me ready to agree to anything, that might be reasonable, but Instead of proceeding upon those things So necessary, that they ought to have Employed your first thoughts, you have Squandered away your time in hawking after Imaginary Grievances, for the Space of one whole month, without making one Step towards the Service of the Queen or the Country.

You have presumed to take the Queen's Subjects into the Custody of the Sergeant-at-Arms, who are not Members of your house, which you can't lawfully doe, and is a notorious Violation of the Liberty's of the people.

You have taken upon you to administer an Oath to one of your Members, and have Expell'd him the House for refusing to take an Oath which you could not legally administer to him, that is most Certainly robbing that Member of his property, and a most notorious assuming to yourSelves a negative Voice to the freeholders Election of their Representatives for which there can be no precedent found.

You have arbitrarily taken upon you to Command the high Sheriff of this County to discharge a prisoner, who was in his Custody at the Suit of one of the Queen's Subjects and he has been weak enough to doe it, for which he Lyes liable to be Sued for an escape whenever the Gen thinks fit to doe it, and from which you can't protect him, this is a notorious Violation of the Rights of the Subject, and a manifest Interruption of Justice.

You
You have taken upon you to appoint one of your Members to act as Clerk of the Committee of the whole house, which you have no power to doe, and the party officiating is Liable to be prosecuted, for acting without Lawful authority and without being qualified to act.

These gent are some of the Irregularities you have bin guilty of this Sessions, Some of them are Incroachments upon the Queen's prerogative, the rest are all notorious Infractions upon the Liberty's & property's of the people. I was going to Conclude with giving you Some wholesome advice, but I consider that will be but labour lost, and therefore Shall reserve it for persons, who I hope will make the Right use of it.

Ordered that his Excellencys Speech to this House be read, which was Read accordingly viz.

Gent.

I am Sorry to See Soe many persons who have been Chosen by the Country to Serve as Representatives in this Assembly as I Perceive are now absent, have soe little Regarde to the Service of the Queen and their Country as to Neglect soe great a trust as is reposed in them.

I did attend here the very day to which the Assembly Stood adjourned, in hopes the Season of the yeare would have Induced Gentlemen to attend their Duty early, that they might have been the Sooner dismist, but Since it happens otherwise, and I See there is a Majority of the house present, I am not willing those that doe attend, Should, by the Negligence of others, be deprived of the opportunity of doing what is possible for the good of the Country, I shall therefore propose to you Such things For your Considerations as I think not only proper but of absolute Necessity to be provided for at this time.

And first I may acquaint you by Command from the Great Queen of England my Royal Mistres, that her Majesty expects you to Settle Such a Revenue as may be Sufficient to Support the dignity of her Government and Supply all the necessary Charges of the Same, and because the Queen has bin Informed that
that the Country is poore, I am Commanded to acquaint you
that She is graciously pleased to accept of fifteen Hundred
pounds a yeare, in the Stead of two thousand pounds a yeare
which were granted for two years, which terme expired on the
13 day of December last I am likewise Commanded to acquaint
you that her Majesty expects this Revenue Shall be Settled for
one and twenty years.

Ever Since I have had the Honour to Serve the Queen as
Governor of this Province, at the beginning of every Sessions
I have Recommended to you the preparing a Bill or Bills
whereby the Right and property of the Generall proprietors,
to the Soyl of this Province may be confirmed to them
according to their Respective Rights and Titles, and Likewise
for the Confirming and Settling the particular Titles and
Estates of all the Inhabitants of this Province, and other pur-
chasers Clayming under the Generall Proprietors, This is in
its own nature so necessary, for the Settlement, well being and
happiness of this people and Country, that I hope it will be
noe longer delayed.

I did the last Sessions take notice to you of the Ill Con-
dition of the Bridges of this Province, I was then and Still am
of opinion that the only way Effectually to cure that distemper
would be to lay a tax for the building of Bridges in all such
places where they are Requisite upon the Generall Publique
highways, if you can think of any better Method, I shall be
very ready to hearken to it.

There are Some other things I shall allways think myselfe
obliged to put you in mind of as often as we meet, particularly
a Bill for Settling the Militia, A Bill for Settling the Qualifica-
tions of Jurors, a Bill for Laying the Same Dutys and Impo-
sitions upon goods Imported into and exported out of this
province as are paid by her Majesty's Subjects in the Neighbour-
ing Province of New Yorke, And a Bill to prevent Idle persons
Setting the woods on fire, for want of which I believe many
people will Suffer Considerably in their Cattle this winter;
These Gentlemen are things I believe most people are Satisfied
ought to be provided for.

I must likewise recommend to you the making Some pro-
vision for Erecting and Repairing Court houses and prisons of
which there is great want in this Province.

The last thing I shall Recommend to you at this time is a
Review of the Laws in force in this Province, before the Gov-
ernment was Surrendered to her majesty, Some among them
may with Some amendments be made useful, if Soe Shall all-
ways find me ready to Receive them.

This
This is what I thought myself, by my good wishes to the Country, obliged to put you in mind of, at this time, if anything else occurs to your thoughts fit to be provided for by a Law, you shall always find me ready to receive any thing that may be for the Service of the Queen and the good and welfare of the Country.

Gentlemen Since I wrote this one thing more occurs to my thoughts, which is this, I have received information from very good hands that the Negroes are grown very insolent and committing great enormities, the best expedient I can recommend to you in that case is the passing a law to settle a price upon the head of every Negro who shall be put to death in pursuance of the Law, to be paid to the owner of every such Negro, this I hope will be a means to frighten them from committing any the like enormities for the future.

The House according to Order having taken into consideration the motion for Choyce of a Member to serve for Monmouth County.

Ordered that the Speaker issue out his warrant to the Clerke of the Crown for the Electing a Representative for the County of Monmouth to serve in General Assembly in the Room of Cap John Bown who was Expelled this house last Setting.

Motion being made and the question put whether the reply to his Lordship's answer to the Remonstrance given in to his Lordship last sitting, shall pass with its amendments as it was last read in the Committee, it past in the affirmative.

Motion being made and the question put whether the House did agree to the Resolve of the Committee It is Resolved by the House Nemine Contradicente, that this house will not Raise any money until his Excellency Consents to Redress the Grievances of the Country, which if he does, then this house has Resolved to Raise fifteen hundred pounds for the Support of the Government for one Yeare.

Mr Bass The Clerke of the Crown came to this House and acquainted the House that he had Received a warrant from the Speaker of this house requiring him to Issue out a writ to the Sheriff of Monmouth County for the Electing a fitt person to Serve as Representative for 3d County in the Room of Cap John Bown, which order he said he Could not Comply with not having the Seale of this Province his Lordship having the keeping of the Same by directions from the Queen.

Motion being made and the question put whether the Reply to his Lordship's answer Should be Sent up to his Excellency. It past in the affirmative.

Ordered that Mr Royse Mr Hall, Mr Lawrence, and Capt Parker wait on his Excellency with the following Message, vizt.

The House of Representatives having Sent a Message to your Excellency, to know when your Excellency would be waited on, with a Reply, this House had made to your Excellency's answer to their Remonstrance, and your Excellency having not (as is Usual in Such cases) assigned them any time, they have appointed us to wait upon your Excellency with the Said Reply and to deliver it to you; and that they Deliver to his Excellency the Reply of this house to his Lordship's answer to their Remonstrance.

Ordered that his Lordship's answer to the Remonstrance given into his Lordship's last Sitting, and the Reply of this House thereof, be Entered in the Minutes of this House.

Ordered that the Reply to his Lordship's answer be forthwith printed and published.

Mr
Mr Royse Reported that Mr Hall, Mr Lawrence Cap' Parker, and himselfe mett his Excellency by the way, and acquainted his Lordship they were Sent by the house with a Message to his Lordship, his Lordship Asked what it was, Mr Royse Asked if he would Receive it there, his Lordship Replyed "yes," why not as well here as any where Ellse, upon which Mr Royse Said he delivered the Message to his Lordship who read it, and Said he had Sent the house word yesterday, that he would give them an answer in due time. Mr Royse further Reported that he acquainted his Lordship he had an Order from the house to deliver the Reply to his Lordship's answer to his Excell, and tendered the Same, to which his Lordship Replyed, "I will not Receive it, you doe not proceed Regularly.

The Reply to his Lordship's answer to the Remonstrance is as follows viz'

May it please your Excellency,

We the Representatives of this her Majesty's Province of New Jersey, finding her Majesty's Subjects greatly and as we are very well sattisfied with good reason aggrieved, thought we could not answer the trust reposed in us by our Country Should we not Endeavour to gett those hardships removed under which they Labour'd.

It was needless to hunt after Imaginary grievances, real ones in too great numbers presented themselves, and though from you we have mist of obtaining that relieve, that the Justice of our Complaints Intitled us to, Yet we do not despaire of being heard by her Sacred Majesty, at whose Royall feet we Shall in the humblest manner, Lay an account of our Sufferings, and however Contemptible we are, or are Endeavoured to be made appeare, we are persuaded her Majesty will Consider us, as the Representatives of the Province of New Jersey, who must better know what are the Grievances of the Country they Represent, than a Governour can doe, who Regularly ought to Receive Informations of that kind from them, and we doe not doubt that Glorious Queen will make her Subjects here as easy and happy as She can.

When we told your Excellency we had reason to think Some of our Sufferings were very much owing to your Excellency's long absence from this province, which rendered it very difficult to apply to your Lordship in Some cases that might need a present help, we Spoke Truth; and notwithstanding
notwithstanding all ye Excellence has Said of a Month's or twelve weeks in a yeare and the weekly going of the Port, we cannot be Persuaded to believe that nine months or upwards in a yeare is not a long absence, Especially when the Seale of the Province is carryed & kept out of the Governent all that time, and the Honble Co' Ingoldsby the Lieutenant Governour So farr from doing right, that he declyned doing any act of Government at all, whether he govern'd himselfe by your Excellency's Directions or not we cannot tell, but Sure we are that this Province being as it were without Government for above nine Months in a yeare we must still think it a great Grievance, and not made less so by Carrying the Seale of the Province to New Yorke, and Laying her Majesty's Subjects under a necessity of applying from the Remotest Part of this Province for three parts of the year and better, to your Excellency at Fort Anne in New Yorke, From which place most of the Commissions and Pattents granted during your Excellency's absence are dated, (by what authority we Shall not Enquire) Notwithstanding a Lieutenant Governour resides in the Province and is by her Majesty's Comission Empowered to Execute the Queen's Letters Pattents, and the Powers therein Contained during your Excellency's absence from this Province, of New Jersey—without which Powers given and duly Executed a Lieutenant Governour is Useless and an unnecessary Charge, and we cannot think that her Sacred majesty who honor'd that Gentleman with So great a Marke of her Royall favour, as Giving him a Commission for Lieutenant Governour of New Jersey, did at the Same time Inhibitt him from Executing the powers therein Exprest.

Things are Sometimes best Illustrated by their Contrary's, and perhaps the most Effectuall way to Convince the world, that this Complaint is frivolous and untrue, is by your Excellency alleged, would be for your Excellency to bring the Seale of the Province of New Yorke to Burlington, keep it there and doe all the acts of Government Relating to the province of New Yorke, at Burlington in New Jersey for above three fourths of a yeare, and lett the Lieutenant Governour Reside at New Yorke during that time without doing any act of Government, adjourn their Assembly on the Very day or day before they are to meet, that they may not lose the advantage of travelling to New Yorke from the remotest part of that province, and at a time when it cannot be done without the utmost Prejudice to their affairs. Its hardly probable they would be pleased under Such
Such an admistration, notwithstanding the Ease of Informing your Excellency every week by the post of any Emergency that might happen.

We are apt to believe upon the Credit of your Excellency's assertions That there may be a number of people in this province who will never be faithful to nor live quietly under any Government nor Suffer their Neighbours to Enjoy any peace, quiet or happiness, if they can help it. Such people are Pests in all governments have ever bin so in this, and we know of none who can lay a fairer Claim to those charecters than Many of your Excell^y's favorites.

What mallice and revenge were in the Prosecution of the Condemned Persons we don't know, we never heard of any till now, and hardly can be persuaded to believe its possible there Should in both the Instances. It's not impossible there might be Mallice in the prosecution of the woman who was Condemned for Poysoning her Husband, there not being, (as is said) plain prooffe of the fact, but 'twas prov'd She had attempted it before more than once, and there were So many other Concurring Circumstances as did Induce the Jury, who were of the Neighborhood (and well knew her Charector) to find her Guilty, and it's hardly probable their So doing was an act of Mallice.

The woman who murdered her own Child did it in Such a manner and So publiquely that It's unreasonable to Suppose there could be any Mallice in the prosecution of her, and we cannot think (notwithstanding your Excellency's assertions) that you can or may believe there was, this woman was a Prisoner in the Sheriff's Custody for breach of the peace, and going about Some of the household affairs, the Sheriff Employed her in, with a knife in her hand, her Child who was Something froward, followed her Crying, upon which the Mother turn'd back to it and cutt its throat, but not having cut it deep Enough, the Child Still followed her all bloody, and Crying O, mother you have hurt me, the mother turn'd back a Second time, and cut it Effectually, and then it took it up and carried it to the Sheriff or his wife, at whose feet She laid it, how farr Such a wretch is Intitled to the Queen's favour her Majesty can best tell, when She's made acquainted with the fact, but Sure we are She never gave your Excellency the power of pardoning willful murder, whether your Excell^y has or has not Reprived them you best know, and are only accountable to her maj^y for your proceedurs therein ; tho' we have too Much reason to beleive the favorable opinion your Excell^y has so publiquely Exprest of her, has
been a great reason to Induce her to make her Escape which she has done. We thought it our duty humbly to Rep-
resent that matter to your Excellency's Consideration, and
had reason to be apprehensive of the Judgments of Almighty
God, whose Infinite Mercy has hitherto Suspended the Execu-
tion of his Justice notwithstanding the great Provocations
have been given him by Impiety, Profaneness and Debauchery
under the Maske of a pretended Zeal for his glory and love
For his Church.

It is not our business to Enter into Religious Controversies,
we leave them to devines, who ought best to understand things
of that Nature, and who may Perhaps Informe us what is ment
by denying the very Essence of the Saviour of the world.

We cannot yet be Persuaded that an Innocent Person Should
pay fees, what the practice in England is we did never En-
quire, but believe that persons acquitted by a grand Jury do
not pay those Extravagant fees they are made to pay here, we
did not governe ourselves by the Practice there but the un-
reasonable looseness of the thing: and your Excellency does grant
that what we Say is in Some measure to be allowed were the
Jurys in this Country Such as they ought to be, We hope
they are and our Experience has not Convinc us that
persons who under pretence of Conscience refuse an Oath
have yett no Regard for the Oaths the take as yr Ex-
cellency saies. The temptations to Resentment prove often too
powerfull and Irresistible; Engage us in unbecoming heats and
when the Charecters of men are written with penns too deeply
dipt in gall it only evinces a want of Temper in the writers
Our Jurys' here are not So learned or Rich as perhaps they are
in England, but we doubt not full as honest.

We thought the only office for probate of Wills was at Bur-
lington, but your Excelletcy has Convinc us that it is wherever
your Excellency is, and Consequently may be at Yorke, Albany,
the East end Long Island, or in Connecticut or New England,
or any place more remote Should your Excellency business or
Inclination call you there which is So farr from Making it less
a grievance that it Makes it more So, and notwithstanding
those Soft, Cool and Considerate terms of Malicious Scanda-
lous and frivolous with which your Excellency Vouchsafes to
treat the assembly of this Province they are of opinion that no
Judicious or Impartial men will think it reasonable that the
Inhabitants of one Province Should goe into another to have
their Wills proved, and take letters of administration at fort
Anne from the Goven of New Yorke, for what Should Re-
which place all the acts of Government relating to New Jersey are limited by the Queen’s Letters patent under the great Seale of England, and when your Excellency is absent from new Jersey to be Executed by the Lieutenant gov’t, and by the s’th letters Pattents Not the least Collour of authority is given to your Excellency, to doe any act of Government relating to New Jersey, anywhere but in Jersey, Nor is there any Instructions (that we know of) Contradicting the said Letters Pattents, any where upon Record in this province, to warrant your Excellency’s Conduct in that afaire.

If this be not Cause and just cause of Complaint we doe not know what is, we are Inclined to believe the Province of New Yorke, would think it Soe were they to come to Amboy or Burlington to prove wills. &c

We doe not think that what we desire js an Invation of the Queen’s Right, but what her Majesty without Infringement of her Prerogative Royall may assent to, and their late Majesty’s of blessed Memory did by their Governour Coll Fletcher assent to An Act made in New Yorke in the yeare 1692 Entitled an an act for the Supervising of Intestate Estates, and Regulating the Probate of Wills, and granting Letters of administration by which the Court of Common pleas in the Remote Counties of that Province was Impowerd to Take the Examination of witnesses to any Will within their Respective Counties and cerifie the same to the Secretary’s office and the Judges of the Severall Courts in those Remote County’s Impowrd to Grant Probates of any will or Letters of administration to any person or persons, where the Estate did not exceed 50£, what has bin done there may with as much reason be done here without Sacrificing the Queen’s Prerogative Royall, to the humours or Capricioesy of any person or persons whatsoever.

It is the General assembly of the Province of New Jersey that Complains and not the Quakers, with whose persons (Considered as Quakers) or Meetings we have nothing to doe, nor are Concerned in what your Excell SAYS against them, they perhaps will think themselves obliged to vindicate their Meetings from the aspersions which your Excellency so Liberally bestows upon them, and Evince to the world how void of rashness and Inconsideration your Excellency’s Expressions are, & how becoming it is for the Governour of a Province to Enter the Lists of Controversy with a people who thought themselves Entitled to his Protection of them in the Enjoyment of their Religious Liberty’s. Those of them who are Members of this House have begg’d Leave on behalfe of themselves and their friends to tell the Governour that they must
must answer him in the words of Nehemiah to Sanballat contained in the 8th verse of the 6th Chaptr of Nehemiah vizt "there is no Such thing as thou saist, but thou fainest them out of thine owne heart."

We are So well assured that the fact is true that the Secretary's office is kept at Burlington only that we Still are of opinion it is a grievance for the reasons we have assigned, the Proprietors Records has not anything to do with the Secretary's office but is an office wholly belonging to the Proprietors, and alltogether at their Disposall; and is not a Secretary's office kept at Amboy, "Either as far as the Nature of the thing requires or can admit of, or any way at all.

And as the assembly's and Courts Sitt allternately at Amboy and Burlington, So it is highly reasonable the Secretary's office Should be kept allternatively also at both those places, or by deputy in one of them, And may be very well done without Making two Secretaries.

Both this and the rest of our Complaints are not with designe to amuse the people but are Just and Reasonable; and we believe will by the people be thought to be grievances till they are Redrest ; who can noe more think it reasonable that all the Inhabitants of the Eastern Division should come to the Office at Burlington, than that all of the Western Division Should goe to Amboy.

We are still of opinion the Grant we Complain of is against the Statute we Mention, because it is Exclusive of others & to the Prejudice of the publique. It can never be thought reasonable to prohibit any body to Cart their own Goods or any body's else, as by Virtue of that Grant has bin done, and not only in the Road from Amboy to Burlington, but in the Road from Shrewsbury; and a Pattent may as well be Granted to keep Horses to Hire by which a man may be hinder'd to Ride his owne; It is Destructive of the Common Rights of Men and a great Grievance, and we had reason to Endeavour to get it Redrest.

It's true a Certaine Convenience For transportation of Goods is no Doubt of great use, and the profitt that accrues by Such undertaking is the Motive that Induces any person to be at the Charge of them, and providing fitt Carriages for that End, and of ascertaining the times and prices of Carrying, and the more providers of Such Carriages, the more Certain and Cheap the Transportation, and freest from Imposition, and Consequently the Fewer Cariages, the less Certaine & dearer, and the persons under a necessity of using them more Subject to be Imposed upon by the Carryer; Now whether
whether Granting by which others are Excluded, (waveing the
unlawfullness of it) be a mean to Encrease the Number of
undertakers in y' kind or to lessen them and Confine those who
have any occasion to transport goods to give Such price as he
that has the pattent thinks fit to Impose, we leave to all men
of Common Sense to Judge; and if Experience may be ad-
mitted to determine that matter, it is plain that Transportation
of Goods both by land and water is dearer than it was before
the Granting of that pattent. It's true the Certainty was not
So great as now, for now we are certaine a man cannot with
his own carte carry his own goods, but that if he does they
will be Seized, & if that be one of the Conveniences which the
wise people in Europe think of absolute necessity, we Shall
think it no Irony to be called wiser in differing from them, and
calling them Monopolies as they are, and prejudicial to Trade,
and Especially that between Yorke and Amboy, Burlington
and Philadelphia which did not owe Its beginning to your Ex-
cellency's Pattent, but was begun Long before your Excell-
ency had anything to doe with New Jersey, and in all prob-
ability had much more Encreast were it not for that Pattent.
And we believe whenever the Gentlemen of the Law will give
your Excellency their true opinion of it you will not be long in
doubt whether 'tis a monopoly or not. We thought it a
monopoly, as we doe Still, and a grievance, as it is also both
that and other Grants made by your Excellency at Fort Anne
in New York for anything in Jersey.

Your Excellency has neither by birth nor acquisition a Right
to the Sovereignty of New Jersey, nor have you any Power of
Governing the Queen's Subjects here, but what her Majesty is
pleased to Grant you by her Letters pattents under the
great Scale of England, by which Letters Pattents the
Powers therein Contained are Limited to that Country
which was formerly Granted by King Charles the Second
under the name of Nova Cesarea or New Jersey, and
wth has since bin subdivided by the Proprietors and Called
East New Jersey, and West New Jersey and which her Majty
is pleased to Reunite under one Entire Government vizt. The
Divisions of East and West New Jersey in America and in
case of your Excellency's Death or absence from that Country
which was Subdevided by the Proprietors & Called East New
Jersey and West New Jersey, the powers of Government are
Lodged in other hands; Now Either Fort Anne and the City
of New Yorke is in that Country granted by King Charles the
Second and Subdevided by the Proprietors thereof and Called
East New Jersey and West New Jersey or your Excellency is
absent
absent from New Jersey when you are at Fort Ann in New Yorke. That Fort Anne is in New Jersey we believe that even your Excellency Will think it Impracticable to persuade us to doe So much violence to our Reason as to believe. Therefore your Excellency when at Fort Anne or anywhere in New Yorke is absent from New Jersey and what the Consequence is we need not Say, thinking the pretence of a Power to doe acts of Govern[]' relating to New Jersey at Fort Anne in New Yorke to be so Manifestly absurd as to need nothing Farther to be Said Against it.

There is nothing more Common in the Statutes than the Establishing fees, and we are of opinion that all fees have been Established by act of Parlament and Indeed it seems to us unreasonable they Should be Established by any other authority, for if a governour Either w'th or without his Councill can appoint what Summs of Money Shall be paid for fees he may make them Large Enough to Defray the charges of Government without y's Formality of an act of assembly, to raise a Revenue for the necessary Support of the Same, and if it does not come up to the taxing of the Queen's Subjects without their Consents in Assembly, we are to Seek what does.

We cannot think the Clause of your Excell'y Instructions which we have recited, to be So forraigne to the Matter of fees, as your Excellency sais It is, for the Enforsing the payment of fees by any authority but that of the assembly's, is taking away a man's goods otherwise than by Established or known Laws, Except the act of a Governour and Councill be a Law which we think is not nor never Intended by the Queen it Should, Nor doe we think by the Instructions your Excellency Mentions you are to Establish fees, but only to Regulate those allready appointed, and to take care that no Exaction was used, but if it did your Excellency has convict the world that you doe not think yourselfe bound by the Queens Instructions but where the Law binds allso—

As in the Case of Ormston where nothing Could be more Positive than her Majesties Directions yet your Excellency did not think yourselfe Ministerial, or by not Complying with her Maj'ties' Orders that you accused the best of Queens with Commanding her Governour to doe a thing which was not warranted by Law. Nor never Enquired whether the Refusing obedience to her Commands was a fitt Return for the many favours She had bestowed upon you. but govern'd yourselfe in that Singular Instance as neere as you could by the Law.

The Seventh Clause was not putt in to arraigne the Queen's Express Commands to your Exceell, but to Complain of the great
great hardships her Majesties Subjects lay under by your Excellency putting the Records there mentioned into the hands of Peter Sonmans which is not the Proprietors Recorder nor, no Express Command from the Queen to put the Books into his hands, and may in part answer the Challenge made by y' Excellency in the last part of the next foregoing Clause; for your Excellency had Commanded the sd Records to be put into the hands of Mr Bass the Queen's Secretary upon which application was made to her Majesty who was pleased to give an Order in favour of the Proprietors, and without all peradventure 'twas Intended they Should be in the hands of the Proprietors Recorder, which m' Tho* Gordon was at that time, and Regularly is Still, being Constituted by the Majority of the proprietors in the Eastern Division and by your Excellency Sworn, m' John Barclay was allso by your Excellency sworne and a proclamation Issued in his favour.

Since which m' Peter Sonman arrived from England and upon application to your Excellency was by your Excellency admitted Receiver Generall of the Quitt rents, and the propriets Records by your Excellency put into his hands which, with Submission, we think could not be don regularly by your Excellency for in the First place they were Constituted by the Majority of the Proprietors, whose Servants they were, and to whom they were accountable and to none Else.

2\textsuperscript{ly} These places were the properties of m' Tho* Gordon and m' John Barclay, and to deprive them of them without due Course of Law is what your Excellency, has no authority to doe, nor can have——

3\textsuperscript{dy} Whether they were made by the greater or lesser part of the Proprietors your Excellency was no ways Concerned nor had any right of determining in the favour of Either one or Other, the Law being open to any one who thought themselves aggrieved.

4\textsuperscript{th} Those books and Records were the properties of the General Proprietors, and if your Excellency can dispossess any proprietor of them, (for Thomas Gordon was a Prop') and put them into the hands of another, you may by the Same Rate Dispossess any one of their Goods and give them to who You think fitt, and any proprietor of their Property and give it to which of the proprietors you think fitt, as is actually done by your Excellency in the Case of Sonmans, and was attempted with the Same Violence in favour of m' Bass. It will not be a Sufficient answer to this to Say Sonmans was Proprietors Agent which whether he was or not your Excellency had no right to Determine, to any other purpose but admini—
tering an Oath to him, after which he was of Course to be allowed, and So ought as many agents as the proprietors Made, who were not accountable to your Excellency for any procedures in the proprietors affairs y were not unlawfull.

5th Sonmans neither had nor pretended to have at that time (whatever he has done Since) any Right or Collour of Right to be the Proprietors Recorder not any mention being made of it, in that very lame Commission he had, and were he to have the top of his pretences it would but to be Deputy to a person in England, and whether he has a Right or not is a great question, and Regularly only determinable at the Common Law; but your Excellency’s Shorter Methods of procedure Saves disputes of that kind; if this be acting according to Establishd and known laws, not Repugnant to, but as agreeable as may be to the Laws of England, If this be administering those laws for the Preservation and protection of the people, we would be very gladly Informed what perverting them can be. As to the matter of fact we aver it to be truth, that m Sonmans did not Reside in the province, had not given Seennrity for the keeping of those Records, as by the Queen is positively directed. They were carried out of the Eastern division and were produced at the Supream Court at Burlington at the time of our Complaint, Those things and that Gen Character are So well known that it’s needless to offer anything Else in Justification of that Reasonable request we made that they might be so kept as her Majesty’s Subjects might have recourse to them, and in the hands of Such of whose fidelity there is no reason to doubt.

These, may it please your Excellency, were the grievances we Complain’d of, and they were but a Small number of many we Could with Equall Justice Remonstrate, and which notwithstanding those Soft Cool and Considerate terms of false Scandalous & Malicious and other bitter Invectives which your Excellency So often uses to the Representative body of a Country, we are Still of opinion they are not Imaginary but Reall Grievances, not false but God knows too true, & which it was our Duty in Discharge of the trust reposed in us to gett Redrest.

Our Sad Experience has Convinct us that our Endeavours have not mett with Success answerable to what might Reasonably be our Expectations, and that Instead of Redressing the Grievances of the Country their Number is Increast.

Before we Enumerated those Grievances of an higher Nature and attended with worse Consequences we first Said the treatment the people of New Jersey had received, was very different from what they had reason to Expect, under the government of
of a Queen deservedly famous for her Just, Equall and mild administration; that the hardships they Endured were not owing to her Majesty, who they were well assured would by no means make any of her Subjects Miserable nor continue their misfortunes were she acquainted with them, and in her power to give them Relief, but that the oppressions they Groan'd under were the unkind Effects of mistaken power, and what these Effects were and who the Cause of them were proceed to Shew, and if the Instances we there give be true, It will there appear to the world that the Expressions we have used are the Softest could be Chosen and very farr Short of what the nature of the thing Could beare, and that these bold accusers are a Sort of Creatures Called honest men, Just to the trust Reposed in them by their Country, who will not Suffer their Liberties and properties to be torne from them by any man how Great Soever if they can hinder it. And that the reasonableness of our Complaints may appeare the plainer, we Shall Consider what your Excellency has Said in answer, and leave it to our Superiors & to all Just and Impartiall men, whether we are not a people the most abused of any of her Majesty's Subjects.

As to the First Instance, your Excellency does acknowledge the first to be true and Offers the following reasons to Justifie your Conduct to the Councill of Proprietors; The first is, That by her Majesties directions you are to allow of all Such Agents as the Generall Proprietors Shall appoint, Such Agents Qualifying themselves by taking Such oaths as the Queen is pleased to direct and no others; that no persons under the name of a Councill of Proprietors have ever tendered ym'selves to take Such oaths, Consequently they are not Capable of acting as agents.

That the Councill of Proprietors are a people pretending to act by a power Derived from Certaine persons who have now Power to Grant, and that this is a truth (viz) That they are a people pretending to act by a power derived from Certaine persons who had no power to Grant) your Excellency is Satisfied besides other reasons by this in particular that the Assembly have voted to put the Records into the hands of Peter Sonmans to be a Grievance, whereas their not Qualifying themselves is a Greater Grievance. To Sett this matter in a true light it will not be Improper to produce the words of the Instructions, which are as follows, You are to permitt the Surveyors and other persons appointed by ye forementioned Generall proprietors of the soyle of that Province for Surveying and Recording
Recording the Surveys of Lands Granted and held of them to Execute accordingly their Respective trusts. &

You are likewise to permitt, and if need be to aid & assist such other agent or agents, as Shall be appointed by the s\textsuperscript{d} proprietor for that End to Collect and Receive the Quitt rents which are or Shall be due unto them from the particular possession of any tract or parcell of Land, from time to time, provided allways that Such Surveyors, Agents or other officers appointed by the s\textsuperscript{d} Generall Proprietors, doe not only take proper Oaths for the due Execution and Performance of their Respective offices and Employments, and give good & Sufficient Security for their so doing, but that they Likewise take the Oaths appointed by act of Parlament to be taken, Instead of the Oaths of alegence and Supremacy, as allso the test and Subcribe the forementioned association, all which you are accordingly to Require of them, and not otherwise to admitt any person into any Such office or Employment. After the Proprietors had Surrendered their power of Goverment relating their Soyle they were under a necessity of Employing persons to Survey and Record the Surveys of Land granted by and held of them, and in the Eastern Division Severall Quittrents being due to them there was a necessity of having one or more agents to Collect and receive those rents, w\textsuperscript{th} persons (because the Crown Intended that the proprietors by the Surrender of their Goverment should by no means be Insecure in their properties) your Excellency was directed not only to permit such officers to be and Execute their Respective trusts, but also to aid and assist them if need were, and because Such offices were places of trust both with Respect to the proprietors and the Inhabitants, it was directed that they Should take proper oaths, and give good and Sufficient Security, and that they who Enjoyed those places of trust Might be persons well affected to the present Goverment there was Especiall care taken to direct that they Should take the oaths appointed by act of Parlament, to be taken, which your Excellency was to Require of them, and not otherwise to admit them to Execute those trusts, from all which we observe, first, That no agents are Concerned in that Instruction, but Such as were to Survey and Record the Surveys of land and Collect the Quittrents—

2\textsuperscript{d}y That the Proprietors were not limited to Employ a Certain Number of agents, but might Employ as many as they thought fitt, all which your Excellency was to aid and assist if need were.

3\textsuperscript{d}y Your Excell was not to Expect while they tendered y\textsuperscript{m}-Selves
Selves to take the oaths appointed, but to Require them to take them, and upon their Refusall not to admitt them for it was Impossible they or any else Should deem themselves bound by the Queen's Instructions to Certain performances Except Such Instruction had bin made Publique and they made acquaintied with it. Now in the first place your Excell never publisht any Such Instruction, nor ever did require those agents called the Council of Proprietors to comply with it by taking any Oaths.

2dly The Councill of proprietors are not Such agents as the Instructions Mention

3ly Were that Instruction binding your Excell has by noe means Comply'd with it, for the Surveyor appointed by the proprietors of the Western Division, has Severall times tendered himselfe to take and Subscribe according to her Maj'ly directions and have bin Refused.

4thly Mr Sonmams tho a Bankrupt and his powers disputed, admitted to keep the Records of the Eastern Division, & that without any Security, and persons who were Sworne to those places and Employed by proprietors & a greater Number not only not permitted to act but deprived of their places, (with which your Lordship has nothing to doe) without a due Course of law forcibly by your Lordship's directions. Lastly the Councell of Proprietors are attornys to Private men for the taking care of their Severall properties, and are neither concerned in that Instruction nor bound by it—If they were we Shall not dispute how farr that Instruction may be a law to your Lordship, but we are Sure 'tis So to no body Else, but where the laws of the land bind without it, & if So 'tis no Sufficient warrant to destroy any man's property, or deprive him of the use of it, without the Judgment of his peers, for your Lordship cannot but know, if you doe not, the last Clause of the petition of Right will tell you, That the Queen's Servants are to Serve her according to law, and not otherwise and Every Gentleman of the Law can Informe your Excell if he pleased that the Queen's Authority or warrant product (if you had done any Such thing) cannot Justifie the Commission of an unlawful act, which this Certainly must be, Except the law provides that no man must make an attorney but with your Lordship's approbation. As to the Second reason, to use your Excell's Expressions, if we could wonder at anything your Excell has don, it would be at the reason your Excell gives as much as at the action, it being the plain pretending to a Right of Judging Solely who have a Right to their Estates, and who not, and according to that Judgm't to permitt them to Retaine or
or force them to part with their possessions, for in the first place that matter never was brought before your Lordship, and what Information you had (if you had any) was private; and we are told no freeman can be disposest of his freehold but by Judgment of his Peers, or the Law of the Land, but here is at once a determination that a Number of Proprietors nigh or above 9\textperthousand} of the whole have no right to Grant, and accordingly they are prohibited taking up or disposing of their lands—, for the Council of Proprietors are all proprietors themselves, Except Mr. Morris their President, and we can’t see but any freeman or number of freemen in the province may be disposest by the Same measures, For ’tis but your Lordships saying, the Persons they had their lands from had no right to grant, and then order the possessors to make no farther Improvement, nor to dispose of any of their Lands, and thus Conclude them without the tedious formality of the old Magna Charta way, and who is hardy enough to dispute with a man that Commands two provinces.

2\textsuperscript{dly} What your Excellency Asserts with relation to the Council of Proprietors vizt that they were persons deriving a power from those who had no right to grant, is what y’ Excell\textsuperscript{e} neither did nor could know, that you did not know it, nothing is more plaine, because your Excellency Some days after your Lordship’s answer to our Remonstrance, Summon’d Some of the Council of Proprietors before y’selfe in Councill and there asked them the following questions, (vizt) first, who the late Council of Proprietors were,

Secondly, who were the Present Council of Proprietors,

thirdly, who they derived their powers from,

fourthly what their powers were— by which it appears your Excellency neither knew who the Council of Proprietors were, what their powers were, nor who they derived them from, which is very far from knowing whether the persons who gave them those powers, had power to grant or not, and that your Excell could not know is plain, because the deeds of what proprietors are in this Country you never did See, and those that are in England you could not See.

How your Excell is from our voting the putting the Records into m’ Sanmans hands, to be a grievance, Sattisfied that the persons from whom the Councill of proprietors derive their power have no power to grant is very much beyond our poor Capacities to understand—and may perhaps be of the number of these unanswerable objections your Lordship tells us of in your answer to the next Clause—your Lordship Justifies your Proceedings
Proceedings with the assembly men as being your Duty, and that what you did was by virtue of the Queen's Instructions, how farr they will Justifie your Excellency's Conduct is our next business to Speak to, but in the first place We are obliged to your Excell for acknowledging the matter of fact, which tho notoriously known was omitted to be entered in the Journalls of this House by your Excellency's faithful Servant Mr Wm Anderson late Clerke of this House.

By the Queen's Instructions not the least Collour of authority is Given to your Excellency, to be a Judge of the Qualifications of assembly men, so as to admitt or Reject them, which is not only a direct Contradiction to the very nature & being of assemblies, but must render the Lyerties lives & properties of the people Entirely at your Excell disposall, which as her Majesty never Intendid So without doubt She never did Intend by any Instructions to make So precarious, and how well She'll be pleased at wresting her Instructions to authorise what we are well Sattisfied She will be very farr from countinancing, time may Informe us. This House Could not be So much wanting to themselves and the province they Represent, as to Omitt taking notice of a procedure, which tends to destroy the very being of assemblies, by rendering them the tools of a Governours arbitrary Pleasure, and the Enemies instead of the preservers of the Liberties of their Country, and we are well assured that nothing your Excell has Said, will persuade the world to believe that your Excell or any other Governour has that power you pretend to, or that it can be Consistent with the Liberties of a free people.

That there were Considerable Sums of Money raised, that most of them were raised with Intent and purpose to give to your Lordship, to procure the dissolution of the last assembly and procure such officers as the Contributors Should approve of. That in all probability the money So raised was given to your Lordship, That the assembly was dissolved, That the Contributors were Complyed with, as far as Could be; That you did receive from Doctor John Johnstone two hundred pounds upon the Score of the Proprietors of the Eastern Division of New Jersey, are Such Notorius truths, that its a vanity to deny them, and will be believed notwithstanding all the force of Evasive artes to persuade the Contrary, and Since we have mentioned Dr Johnstone its not amiss to Enquire whether the Services you were to doe the Proprietors were Such as your Lordship ought or ought not to have done; If they were Such as you ought to have done, you ought not to have taken money for the doing of them, if they were
were such as you ought not to have done, much less ought your Lordship to have taken money and had you not been more than ordinarily concerned in those Private Contributions without all peradventure would have used all possible Endeavours to have detected the thing and not given those publique marks of your Favour to the persons most Concerned in the persuading and procuring of them.

As to what relates to the assembly, as your Lordship is not accountable to this house for what reasons you dissolved them, So neither is this house to your Lordship for their proceedings, they acted as became a house of Representatives in the affair of Mr Gordon, and what they did was not without your Lordship's Approbation if that Could add anything to the power they had, As to your Excell Reflections on Private men, tis below the Representative body of a Province to take any further notice of them than to doe that Justice to the two worthy Members of this house as to Say they both have and deserve better Characters than your Excellency gives them; and that the humblest application you can make to her Majesty, will never Induce her to grant you a power to use any means to procure a Satisfaction but without the Laws allow of without Such application; We Concluded by acquainting your Excellency that the way to Engage the affections of a people was to let them be Unmolested in the quiet Enjoyment of those things which belonged to them of right, and Should have dated our happiness from your Excellency's Complying with So reasonable and Just a desire, to which your Excellency Reply'd that you Could never answer taking advice From men who did not know how to Govern themselves, and who have allways opposed the Service of the Queen and Interest and good of their Country, we Shall have the admirable Coolness of Temper, and Considerateness of the Reflection and Say your Excellency could hardly have used plainer terms to tell us you will not let us be quiet in the Enjoyment of what belongs to us of right, and your Excellency's proceeding Since that, has Effectually convict the world that we have not put a wrong Construction to your Excellency's Expressions.

Are not her Majesties loyall Subjects hall'd to Jayles and there lay without being admitted to bayle, and those that are the Conditions of their Recognisances are that if your Excellency approves not of their being bayl'd they shall return to their prisons; Severall of her Majesty's good Subjects forced to abscond and leave their Habitations being Threatened with Imprisonment & no hopes of Receiving the benefitt of the law, when your Excellency's absolute will is the Sole measure of it, one
one Minister of the Church of England drag'd by a sheriff from Burlington to Amboy, and there kept in Custody without assigning any Reason for it, and at last hall'd by force into a boat by your Excellency, and Transported like a Malefactor into another Government, and there kept in a Garrison a Prisoner, and no Reason assigned for these violent procedures but your Excellency's pleasure; Another Minister of the Church lay'd under a necessity of leaving the province From the Reasonable apprehensions of meeting with the Same treatment, No orders of men, either Sacred or Civill, Secure in their lives, their liberties or Estates and where these Proceedings will end God only knows.

If these and what we have named before be acts of Mercy Gentleness and good Nature, if this be doing for the good, wellfare and prosperity of the people of this Province, if this be ye adminstering laws for the Protection and preservation of her Maj' sties Subjects, then we have bin the most Mistaken men in the World, and have had the Falsest notions of things, calling that Cruelty, oppression & Injustice which are their direct opposites, and those things Slavery Imprisonment and hardship which are Freedom liberty and ease, and must henceforth take France, Denmarke, the Muscovian, ottoman and Eastern Empires to be the best modells of a gentle and happy Government.

Your Excellency at last Endeavours to persuade the Country that the assembly Instead of protecting are Invading the Liberties of the people; and if we might have Liberty of using Some of your Excellency's Cool and Considerate terms, perhaps the following Instances might Justifie those Expressions, but we leave that to Just & Impartial men, who no doubt will apply them where they are most due.

Your Excellency asserts in the first place; you have presumed to take the Queen’s Subjects into the Custody of the Sergeant at arms, who are not members of your House which you can’t lawfully doe, and is a notorious Violation of the Liberties of the people, Ans; There is nothing more known than that the Contrary to what your Excell' SAYS is true and hardly a Session of Parlament but affords multitude of Instances of it, nay Severall Instances can be produced during the time of your Excellency’s being in the House of Commons, and what your Excellency means by asserting a thing which every body that knows anything knows is not So we can’t tell. Secondly. You have taken upon you to administer an oath of one of your Members, and have expell’d him from the house for Refusing to take an oath which you could not legally ad-
minister to him, this is most certainly robbing that member of his property, and a more notorious assuming to yourselves a negative voice to the Freeholder’s Election of their Representatives for which there can be no precedent found,—Ans—We never did administer an oath—(tho’ we think we have power so to doe) what Oaths were administered, were administered by Justices of the peace before us, We expelled that member for Severall Contempts, for which we are not accountable to your Excell Nor no body Else in this Province, We might lawfully Expell him, and if we had So thought fitt might have Render’d him Incapable of ever Sitting in this House, and of this many precedents may be Produced.

We are the freeholders Representatives and how its Possible we Should assume a Negative Voice at the Election of our Selves is what wants a little Explanation to make it Intelligible.

Thirdly—You have arbitrarily taken upon you to Command the High Sheriff of this County to discharge a prisoner, who was in his Custody at the Suit of one of the Queen’s Subjects, and he has bin weake Enough to doe it, for which he lyes to be Sued for an Escape whenever the Gentlemen thinks fitt to doe it, and from which you can’t protect him, this is a notorious violation of the Rights of the Subjects, and a manifest Interruption of Justice—ans—The person we ordered to be discharged was an Evidence attending by order of this House and under the protection of this House, who were only wanting to themSelves in not Sending the High Sheriff and Lawers to the Same place for daring to offer So publique an affront to the Representative body of a Country.

fourthly You have taken upon you to appoint one of your Members to act as Clerke of the Committee of the whole House which you have no power to doe &c,

Ans—Your Excell has been so very much mistaken in all the foregoing Clauses that we have Great Reasons to believe you are So in this—This House has allways till of late made their own Clerks, and your Excellency cannot Shew us any law why we may not doe it still, Should we think fitt to Insist on it, we have made no Incroachment on her Majesties prerogative Royall Nor never Intend to doe it. but Shall to our utmost, Study to Preserve it, and honourably Support her Government over us; and hope your Excellency will think it for the Service of the Queen, to Comply with our reasonable desires which will very much Encourage us So to doe.

Gentlemen,

The great Desire I have to See the Service of the Queen and
the good of this province carried on, Supported and provided
for, as they ought to be, is the Cause of my giving you this
opportunity of Meeting, to prepare Such Bills to be past
into Laws, as may be proper for the Support of her
most Sacred Majesty's Government and the peace, Quiet,
Happiness and welfare of your Country; Therefore that I
may not be wanting in my duty in the Station the Queen has
been pleased to honour me with, I Shall put you in mind of
those things, which I think ought to be immediately provided
for—the first of which is the providing a Revenue for the Sup-
port of the Government the Revenue which the Queen Expects

the next thing I Shall Recommend to your Care is the Reviv-
ing or Reenacting the Militia Bill Which will Expire with the

Claiming under the proprietors, I am Still of opinion that Such
a Bill or Bills will best Conduce to the Improvement of this
province, as well as to the peace and Quiet of it; I did like-
wise last yeare recommend to you the passing of bills for the
Erecting
Erecting and Repairing Prisons and Court Houses in the Severall County's of this Province and the building of Bridges in those places where they are wanting, and which will never be well don, but by a Generall Tax for that purpose; Very late Experience has taught us how necessary it is to pass a Law for the Settling the qualifications of persons to Serve upon Jury's, Therefore I hope you will take care to prepare Such bills to be past into Laws this Sessions as will answer the purposes afore mentioned. I cant Conclude without again putting you in mind of Revising the acts of Assembly passed in the time of the Proprietary Government; that if any of them may be Reenacted in order to be humbly Represented to her Majesty for her Royall Approbation; If anything Else occur to you fit to be provided for by a law, you Shall allways find me Ready to Consent to anything that may be for the Service of the Queen and the Reall good and advantage of the Country.

M'r Speaker with the house went to attend his Lordship with their answer and Read and Delivered the Same to his Lordship

May it please your Excellency,
torney Generall to raise his fortunes upon the Ruins of our Country.

We find its a great Charge to our Country that Jurys and Evidences are brought from the Remotest parts of the province to the Supream Courts of Burlington and Amboy. We find it's a Great Grievance to our Country that the practice of the law is So precarious that then Innocent persons are prosecuted upon Information and actions brought by Some persons against severall of her Majesties good Subjects, the Gentlemen who are Licensed to practice the Law are afraid to appeare for the Defendants; or if they doe appeare dare not discharge their Duty to their Clyants for feare of being Suspended without being Convict of any Cryme deserving it, or Reason assigned as was don at Burlington in may last, to the Damage of many of her Majesty's good Subjects.

We find the Representatives of this her Majesties Province So Slighted and their Commands So little Regarded, that the Clerk of the Crown has Refused to Issue out a writ for the Electing a member wanting in our House; We hope your Excellency will Consider and Remove these and many Other Inconveniences and Grievances which this your Province labours under, which will Enable us to Exert the utmost of our Abilities in Supporting her Majesties Government, and will make us happy under the mild and meek administration of the greatest and most Glorious of Queen's—we Doubt not were her Majesty Rightly Informed of the poverty and Circumstances of our Country and that our Livelihoods depends upon the Seasons of the yeare, our most Gracious Sovereigne would pity our Condition and never Expect the Settlement of any Support of the Govermt further than from yeare to yeare.

We find the present Militia bill So great a Grievance to our Country that we can never think of Reviving or Reenacting it as it is, tho' we are heartily Willing to provide for the Defence of our Country, which we hope may be don with greater Ease to the people. We have bin and Still are Indeavouring to answer her Majesty's Commands in Confirming the Right and Property of the Soyle of this Province to the Generall Proprietors thereof according to their Respective Rights and titles and likewise to Confirm and Settle the particular Titles and Estates of all the Inhabitants of this Province, and other purchasers Claiming under the proprietors, but tho' we have had Several oppor-
tunities of Meeting in Generall assembly yet have not had an opportunity to perfect it.

We humbly acknowledge your Excell favour in putting us in Mind
Mind of providing Prisons Court houses and Bridges, where Such are wanting which we Shall take into Consideration.

We had a Bill for Settling the Qualifications of Jurys prepared last Sitting at amboy and Shall now present it.

We can’t omit Rendering your Excellency our hearty thanks for minding us of Revising of our former laws—We had last Siting at Amboy appointed a Comitte for that End, but were Impeded by mr Bass the Secretary’s positive refusing to let us have the perusall of them.

As we have always used our utmost Endeavours in the faithfull Service of our Queen and the advancement of the Good and benefit of our Country, So we Shall Still Continue to do the Same with all the Dispatch we are Capable of.

Gentlemen,

I am very Sensible of great Difficulties that do attend this Honbl Imployment, in which her Majtie hath been pleased to place me, the Govermn't of this Province, but I hope you will never faile to assist me to Serve ye Queen & her People here. Her Majtie hath shewn in the whole course of Her Reign, a Reign glorious beyond Example, how much She aims at the Good & prosperity of her People, She hath with indefatigable pains united her two Kingdoms of Eng'd & Scotland, & She continues the same appicaco'n to Unite the minds of all her Subjects. This is her great care & ought to be that of those whom she Deputes to Govern these distant Provinces, which are not so happy by their Situation to be under her more immediate Govermt.

I cannot set before me a better Pattern, I shall endeavour therefore to recommend myself to you by following (as far as I am able) her example.

I persuade myself I shall not give you any just cause to be uneasy und'r my administration & I hope you will not be uneasie with one another, let past differences & Animosities be buried in Oblivion, & let us all seek the Peace & Welfare of Our Country.

Her Majestie would not be burdensome to her People, but there being an absolute necessity that ye Government be Supported I am directed to recommend that matter to Yr consideration, You know best w'h the province can conveniently raise for its Support & the easiest Methods of raising it.

There is another thing also will require yo'r consideration, the making a Law for the putting the Militia upon some better foot than
than it is at present with as much Ease to the People as possible.

I shall only add that I shall always be ready to give my assent to whatever Laws you shall find necessary for promoting Religion & virtue for the Encouragement of Trade & industry, for the discouragement of vice & profaneness & for any other matter or thing relating to the good of the Province.

DIE MERCURII A. M. 16° Mar 1.708

[The following Address should have been inserted in folio 173.]

To the Queen's most Excell' Maj'

The humble address of the Lieut Governor & Councill of Nova Cesarea in America.

May it please Yo' Maj'tie

Wee the Lieut Governor & Councill of Your Maj'ties Province of Nova Cesarea or New Jersey having Seriously & deliberately taken into Consideration the proceedings of the present Assembly or Representative body of this Province thought ourselves bound both in Duty & Conscience to Testifie to yo' Maj'ties Our dislike & abhorrence of the Same being very Sensible that the unaccountable Humours and pernicious designs of some particular men have put them upon so many Irregularities with intention only to occasion Divisions & distractions, to the disturbance of the great & weighty Affairs, w'ch both yo' Maj'ties Hon' & Dignity as well as the Peace & wellfare of the Country required. Their high encroachments upon yo' Maj'ties Prerogative Royal, Notorious violations of the Rights & Liberties of the Subjects, manifest Interruptions of Justice and most unmannerly Treatment of his Excel the Lord Combury, would have induced us sooner to have discharged o' Duty to yo' maj'ty
in giving a full Representation of the unhappy circumstances of this yo' Maj'ties Province & Governm't had wee not been in hopes that his Excell the Lord Cornbury's full & ample answer to a most Scandalous Libel called the remonstrance of the Assembly of Nova Cesarea or New Jersey, which was delivered to the Governo'r by the Assembly at Burlington in May Last, would have opened the Eyes of the Assembly & brought them back to their reason & duty,—but finding that those few turbulent & uneasy Spirits in that Assembly have still been able to influence & amuse the judgment of many well meaning men, in that body, as appears by another late sandalous & infamous Libel called The Reply of the house of Representatives of the province of New Jersey to an answer made by his Ex' Edw'd Viscount Cornbury Gov'r of the said province to the humble Remonstrance of the aforesaid House; We are now obliged humbly to represent to yo' Maj'ty the true cause & w'th wee conceive may be the remedy of those confusions.

The first is wholly owing to the Turbulent Factious Uneasy and Disloyal Principles of two men in that Assembly Mr Lewis Morris & Samuel Jennings a Quaker; Men notoriously known to be uneasie und'r all Governm't Men never known to be consistent w'th themselves, Men to whom all the Factions & confusions in the Governm't of New Jersey & Pennsylvania for many years are wholly owing; Men that have had the confidence to declare in open Council, that Your Maj'ties Instructions to yo' Governo'r in those Provinces shall not oblige or bind them nor will they be concluded by them further than they are warranted by the Law; of which also they will be the judges, & this is don by them (as we have all the reason in the world to believe) to encourage not only this Govermn't But also the rest of Yo' Govermn't in America to throw off Yo' Maj'ties Royal Prerogative, & consequently to involve all Yo' Dominions in this part of the World & the honest, good and well meaning People in them, in Confusion, hoping thereby to obtain their wicked purposes.

The Remedy for all these Evils Wee, most humbly Propose is that Yo' Maj'ties will most graciously please to Discountenance those wicked designing Men, & shewe some dislike of this Assembly's proceedings, who are resolved neither to Support this Yo' Maj'ties Government by a Revenue nor take care to defend it by Settling a Militia.

The last Libel called the Reply &c, came out so suddenly, that as yet we have not had time to answer in all its Particulars, but do assure Yo' Maj'tie That it is for the most Part false in Fact & that part of it w'th carrys any face of truth, they
they have been malicious & unjust in not mentioning the whole truth, which would have fully Justify'd My Lord Corn bury's Just conduct.

Thus having discharg'd this part of o' Duty, which wee thought at present, incumbent upon us, Wee begg leave to assure Yo' Maj'ties that whenever upon us, Sham See the people of this province labour under anything like a Grievance wee shall according to o' Duty immediately apply to the Gover' wth o' best advice, for the Redress of it, & wee have no reason yet to doubt of a ready compliance in him. We shall not be particular in, but crave leave to refer to his Excel'ly's Representation of them to the Rt Hon'ble The Lord, Commiss'rs for Trade & Plantations.

The Strenuous asserting of Yo' Maj'ties Prerogative Royal & Vindicating the hon' of Yo' Govr the Lord Cornbury will in o' humble opinion be so absolutely necessary at this juncture that wthout yo' so doing yo' Maj'tie will find Yo'Self deceived either in Expectation of a Revenue for Support of the Govermn't or Militia for its defence.

In hopes Yo' Maj'ly will take these important things into consideration, & his Excel'ly the Lord Cornbury with all the Members of Yo' Maj'ties Council into Yo' Royall favour & Protection Wee shall conclude wth our most fervent Prayers to the Most high to lengthen Yo' days and increase Yo' Glories & that o'Selves in Particular & all others in General who reap the benefit of Yo' Maj'ties most Gentle & happy Govermn't may be & Ever continue the most Loyal & Dutiful of Subjects to the Most Glorious & best of Queens.

William Sanford, Daniel Leeds, William Pinhorne,
Robert Quarry, Thomas Revell, Richard Ingoldsby,
Daniel Cox, R. Mompesson,
Richard Townley.

To the Hon\textsuperscript{bl}e House of Representatives of Her Maj\textsuperscript{ts} Province of New Jersey now met & Assembled in Generall Assembly at Perth Amboy.

The petition of us under Subscribers Summoned to serve upon the Grand Inquest at her Maj\textsuperscript{ts} Court of Sessions, held for the County of Middlesex in s\textsuperscript{d} Province the Eighth day of this Instant March—

Yo' Petit's doth further begg leave to inform this Honble House that as we are Creditably informed the 5th Mr Sonmons stands indicted at the last Supream Court of this Province for the crimes of Perjury & adultery, from whence we have reason to conjecture that he being conscious of his own guilt & being in terror of more indictments, he took the method aforesaid to frustrate the Grand Inquest proceeding as in Justice they ought.
